3.2.1 Against annual budget

Revenue by Source

Year-to-date revenue accrued were R 83,072 million or R 26,625 million above the year-to-date budget projections for August 2021. The variance is due to the first equitable share installment received in July and the annual billing relating to property rates, sanitation and refuse.

Operating expenditure by type

The total expenditure for the month amounted to R 23,625 million. This is R 18,583 million below year-to-date budget projections for August 2021. 4.1.2 Table C2 Monthly Budget Statement - Financial Performance (standard classification)

This table reflects the operating budget (Financial Performance) in the standard classifications which are the Government Finance Statistics Functions and Sub-functions. These are used by National Treasury to assist the compilation of national and international accounts for comparison purposes, regardless of the unique organizational structures used by the different institutions.

The main functions are Governance and administration; Community and public safety; Economic and environmental services; and Trading services. It is for this reason that Financial Performance is reported in standard classification, Table C2, and by municipal vote, Table C3.
