1.2.3.1 SERVICE CONNECTIONS

The following fees are payable to the Council with effect from 1 July 2023 in respect of three-phases or single-phase underground service connections.

- (i) Where the power supply to a premise is provided with only one consumer, R27 201.72 for a three-phase connection and R25 066.88 for a single-phase connection excluding VAT, provided that where special equipment or heavier conductors require or require 10mm is deemed. Or where another route is required longer than determined by the Electrotechnical Engineer, the full cost such connection is recovered from the applicant based on actual cost of materials, up to a maximum of 40 meters, thereafter R461.10 / m, Excluding VAT, extra, labor and supervision plus 20% in respect of administrative costs, consisting of labor and tool rent, but only 2½% on the cost of material.

(Council: 06 June 2023)

- (ii) Where a power supply to a premise with more than one consumer is provided:

AND

Where special equipment or heavier conductors than 10 mm are required or deemed necessary or where a different route, longer than that determined by the electrical Engineer, is required, full cost of such connection based on the actual cost of material, labor, and supervision plus 20% administrative cost in respect of labor and tool rent, but only 2½% on the cost of materials, with a minimum payment of R27 201.72 per three-phase, excluding VAT and R25 066.88 per single phase, excluding VAT.

(Special Council: 06 June 2023)

The existing policy regarding the replacement of the same or multiphase supply remains unchanged.

(141th Amendment: June 2023)

E. (continue)

Item No

1.2.3.1 SERVICE CONNECTIONS (continue)

- (iii) That an overhead service connection tariff be accepted for R5 514.12.00 which excludes VAT which will only apply to a single phase overhead 10 mm connection, provided that where heavier conductors than 10 mm are required or deemed necessary, a maximum of 16 mm will be allowed at actual cost with an administrative levy of 20% and 25% levy on materials.
- (iv) That if another route is required than by the Engineer or his proxy, the full cost of such connection shall be recovered from the applicant, based on actual cost of materials, up to a maximum of 30 meters, thereafter R122.96 / m extra, excluding VAT, labor, and supervision plus 20% in respect of administrative cost, consisting of labor and tool rent, but only 2.5% on the cost of materials.
- (v) Where ervens are consolidated and subdivided or where more than one connection per erven is required, an amount of R8 874.32, excluding VAT will be payable per connection as a contribution to the capital fund of the electrical network, provided that where more than twelve (12) connections are required, costs will be calculated according to the attached schedule.

(Council: 06 June 2023)

1.2.3.2 SERVICES: (from 1 July 2023)

The following amounts are payable for each of the following services provided that: -

(141th Amendment: June 2023)

E. (continue)

Item No

(i)	The Engineer may at its discretion combine two or more of the following services to coincide with one visit to the consumer's premises and to recover only one money.

Item No

1.2.3.3 DEPOSITO: (see Delegation of Forces: Item E1.3)

The increase in the deposit is with effect from 1 July 2023 as shown below: -

Domestic consumers per amp per phase x1, VAT included	R65.61
---	--------

Trade and Industry per amp per phase x2, VAT included	R79.42
---	--------

Trade and Industrial Consumers: A bank guarantee in respect of the latter consumers can be accepted instead of a cash deposit.

Increased deposits are charged when a consumer's supply has been cut off due to no-payment and must be reconnected provided that current consumers will not be affected by this, except in the event of non-payment.

The deposit is adjusted annually by the same percentage as the increase in NERSA rates.

(Council: 06 June 2023)

(141th Amendment: June 2023)

1.2.4 ELECTRICITY RATES: CONSUMERS OUTSIDE MUNICIPAL AREA

1.2.4.2 A deposit of R377.36 VAT included, in respect of cost estimates / quotations for the supply of electricity or any other service required by consumers within Municipal area.  
(From 1 July 2023)

(Council 06 June 2023)

Allowance					Consumption >15kl = 100%	Consumption >10kl = 200%	Consumption <sup>1''''''</sup> >6kl = 250%

**Table 5 – Prepaid Meter Water Consumption Rate**

(h) Allowances during times of restrictions:

- 1) If a consumer uses more than 15kl during Phase 3 Restrictions, a surcharge of 100% will be charged on the consumption part of the account.
- 2) If a consumer uses more than 10kl during Phase 4 Restrictions, a surcharge of 200% will be charged on the consumption part of the account.
- 3) If a consumer uses more than 6kl during Phase 4 Restrictions, a surcharge of 250% will be charged on the consumption part of the account.

Restriction application Model

A new model for the application of Water Restrictions has been drawn up in accordance with the guidelines contained in the Provincial Gazette Extraordinary No. 7811 of Monday, August 21, 2017. The model determines the monthly water consumption versus water availability and makes recommendations on which Phase of Restrictions are required.

It is recommended that where consumption is less than availability, the next level of restrictions be adopted by the council within a month and where the availability of water begins to improve over a three-month period, the restriction is relaxed.

The table below proves the table contained in the Proclamation.

Column 1	Column 2	Column 3	Column 4	Column 5
LEVEL OF WATER RESTRICTIONS	TRIGGER POINT	PERCENTAGE TARGET REDUCTION IN POTABLE WATER SUPPLY AND DEMAND	TARGET CONSUMPTION OF POTABLE WATER DEMAND (EXPRESSED IN MEGALITRES PER DAY)	CALCULATED NUMBER OF REMAINING WEEKS OF BULK RAW WATER SUPPLY FOR EACH TOWN OR SETTLEMENT IN THE MUNICIPALITY
Water Conservation Measures	Permanent 100% — 81%	Baseline		
1	80% — 66%	0% — 10%		
2	65% — 51%	10% — 20%		
3	50% — 36%	20% — 30%		
4	35% — 21%	30% — 40%		
5	<20%	40% — 50%

Item No

2. TOOL RENTAL

7.1 See Annexure attached  
(Council: 1998.09.14: Item 7: Special Resolution)

8. WORK: PRIVATE AND DEPARTMENTAL: SERVICE FEE: 1 JULY 1994

Where a tariff has been fixed by ordinance or council decision, this tariff will also apply to interdepartmental work performed.

Where no tariff has been determined, the actual wages apply in respect of departmental works, capital works as well as private work in respect of which a head of expenditure is opened and the following wages calculated on the highest notch of the wage scale (scales) plus the leave bonus apply in respect of other private work.
