1.3 EXECUTIVE SUMMARY

The main objective of a municipal budget is to allocate realistically expected resources to the service delivery goals or performance objectives identified as priorities in the approved Integrated Development Plan.

As is annually the case, the municipality was confronted with numerous challenges during the budget process. It remains a complex task balancing the needs of the community with limited resources whilst having to operate within the legislative framework determined by the various spheres of government in ensuring a credible, funded budget is implemented. Some of the crucial factors considered in the Budget Process are listed and discussed below for further clarity.

National Treasury projects a decrease in real GDP growth for 2023 to 0.8% from the previously estimated 0.9% in the 2023 Budget Review. The lower projection is mainly due to decreased household consumption expenditure caused by higher inflation and interest rates, along with reduced net exports. Power cuts are expected to persist throughout the year but gradually improve in 2024. It's emphasized that rapid implementation of energy and logistics reforms is crucial for economic growth.

Given weaker global growth and domestic risks, the government aims to position the economy for sustained growth and resilience to shocks. This involves maintaining a stable macroeconomic framework, swiftly implementing economic and structural reforms, and enhancing state capability to drive higher growth, employment, and competitiveness.

The employment growth in South Africa lags, given that sustainable improvement in employment requires faster GDP growth and better education and skills development.

Headline inflation is expected to decrease as energy and food price shocks subside. Consumer prices are anticipated to drop from an estimated 6% in 2023 to 4.9% in 2024, with fuel prices declining since June 2023. Although food price inflation has slowed, it remains relatively high due to a weak rand exchange rate and increased production costs. Core inflation, driven by higher insurance and vehicle prices, is around 5%. Headline inflation is projected to approach the midpoint of the 3% to 6% target range by 2025.

Household consumption expenditure is forecasted to decelerate from 2.5% in 2022 to 0.8% in 2023 due to interest rate hikes, elevated inflation, declining real disposable income, and weak consumer confidence. Credit extension to households is slowing, with banks rejecting a record-high 70% of credit applications in the first quarter of 2023 due to concerns over repayment capability. Household consumption expenditure is expected to average 1.6% from 2024 to 2026.

The following macro-economic forecasts was considered when preparing the 2024/25 MTREF municipal budget.

Fiscal year	2022/23 Actual	2023/24 Estimate	2024/25	2025/26	2026/27
CPI Inflation	6.9%	6.0%	4.9%	4.6%	4.6%

The economic challenges outlined, including decreased GDP growth, higher inflation, and power cuts, are expected to strain households' capacity to pay municipal bills. Additionally, Eskom power cuts are impacting the sustainability of businesses, both small and large. These issues are collectively putting pressure on the municipality's own revenue, in combination with households and businesses moving to alternative energy sources.

Closer to home and on a provincial level, in the face of global concerns, subdued national economic prospects, and a constrained fiscal environment, the Western Cape Government (WCG) has devised a budget that addresses increasing service delivery demands within limited financial resources. Domestic challenges such as the energy crisis, state fragility, and water shortages have gradually affected provincial budgeting. The goal is to improve efficiency, strategically plan, and implement solutions to ensure continued progress towards a prosperous Western Cape for all.

A Financial Recovery Plan (FRP) was approved by Council on 23 March 2022. Financial recovery plans are prepared for municipalities where interventions are implemented in terms of Section 139, read together with Section 142, of the MFMA. They are largely prepared for municipalities under financial distress.

The mandatory FRP will be used as an instrument to guide the municipality in addressing the financial crisis in the municipality as well as to ensure that the municipality regains its financial health within the shortest timeframe whilst ensuring that all issues which adversely affect the financial health of the municipality are comprehensively addressed. This will allow the Municipality to give effect to the financial recovery plan and the overall recovery process. This budget was prepared against the backdrop of the Financial Recovery Plan and its recommendations.

The municipality applied for the municipal debt relief in terms of MFMA Circular 124 and approval was granted to the municipality. The municipality is now working on the conditions set out in the Circular to ensure that the Eskom Debt will be written off over the three year period.

More must be done by the municipality to improve its financial situation by:

- ❖ Improving the effectiveness of revenue management processes and procedures to improve the collection rate over the MTREF;
- ❖ Cost containment measures must be strengthened to, amongst other things, control unnecessary spending on nice-to-have items and non-essential activities;
- ❖ Ensuring value for money through the procurement process;
- ❖ Providing free basic services to households that qualify in terms of the Indigent Policy of the municipality;
- ❖ Curbing the consumption of water and electricity by the indigents to ensure that they do not exceed their allocation;
- ❖ A review of the current organogram structure must be done as the current structure is unaffordable for this municipality;
- ❖ With the above said only critical vacant positions should be prioritised.

In order to achieve financial sustainability, there must be both an administrative and political will to implement the changes required to improve the performance of the municipality.

Annexures A outlines the proposed property rates tariffs increases for 2024/25 budget year and further rebates on property rates and **Annexure B** the proposed increases in tariffs for service charges and other sundry tariffs as well as the indigent subsidy that will be given to households that qualify in terms of the Indigent Policy of the Municipality.

The 2024/25 total revenue budget amounts to R 525,600 million. This includes transfers and subsidies capital to the value of R 26,171 million. Employee related costs

The Salary and Wage Collective Agreement for the period 01 July 2021 to 30 June 2024 has come to an end and a new agreement is currently under consultation. Therefore, in the absence of any information in this regard from the South African Local Government Bargaining Council (SALGBC), Beaufort West municipality budgeted for employee related cost based on the salary scales applicable for the 2023/24 financial year issued by SALGA as a baseline.

Provision was made for a salary increase of 4.9 per cent based on CPI projected for 2024 and 4.6 per cent in 2025 and 2026 as well as of notch increase to those who qualify.

There has been no change to the second year of the Multi-Year Price Determination (MYPD 5), as such bulk electricity costs are to be calculated using an increase of 12.7 per cent as per MYPD-5 in the 2024/25 financial year.

Given the absence of an approved tariff increase for the two outer years of the MTEF, the increase is projected to be 15.7 per cent in 2025/26 and 4.6 per cent in 2026/27 based on the projected CPI.

Inventory consumed

The other cost relate to materials and supplies as well as consumables to deliver services and for the municipality to operate effectively.

Debt impairment

Debt impairment is calculated based on the collection, i.e. level of payments of the annual billed revenue. This is based on the collection rates of property rates, service charges (electricity, water, sanitation and refuse) and traffic fines.

Depreciation and amortisation

The above cost was estimated, using the straight line method, to allocate their cost to their residual values over the estimated useful lives of the assets.

Interest

Provision was made for the interest payable current annuity loans as well as interest on the bank overdraft and overdue accounts.

Contracted services and Operational costs

Contracted services were increased based on existing contract conditions as well additional cost funded by grant income. Operational cost were budgeted based on the prevailing growth rates, adjusted with CPI and prior actual expenditure trends.

PART 2 - SUPPORTING DOCUMENTATION

2.1 - BUDGET PROCESS OVERVIEW

POLITICAL OVERSIGHT OF THE BUDGET PROCESS

Section 53 (1) (a) of the MFMA (no 56 of 2003) stipulates that the Mayor of a municipality must provide general political guidance over the budget process and the priorities that must guide the preparation of a budget.

Political oversight of the budget process is necessary to ensure that the needs and priorities of the community, as set out in the IDP, are properly linked to the municipality's spending plans.

SCHEDULE OF KEY DEADLINES RELATING TO THE BUDGET PROCESS

The Executive Mayor must, according to the MFMA, co-ordinate the processes for preparing the Annual Budget and for reviewing the municipality's IDP and budget-related policies. The Executive Mayor therefore tabled a schedule of key deadlines with regards to the budgetary process and the review of the municipality's IDP, in council on the 23 August 2023.

2.2 - ALIGNMENT BETWEEN BUDGET AND THE INTEGRATED DEVELOPMENT PLAN (IDP)

The IDP serves as a guideline to the municipality for the correct budget and resource allocations in ensuring that it meets the needs of its residents. It is also an integrated inter-governmental system of planning which requires the involvement of all three spheres of government. Contributions are made by provincial and national government to assist municipal planning and therefore government has created a range of policies and strategies to support and guide development and to ensure alignment between all spheres of government as stated by the section 24 of the Municipal Systems Act, No 32 of 2000.

The Municipality's budget is influenced by the municipal strategic focus areas and strategic objectives as identified in the IDP. The Service Delivery Budget Implementation Plan (SDBIP) ensures that the Municipality implements programmes and projects based on the IDP targets and associated budgets.

The budget has been compiled in accordance with the municipality's IDP document. Also refer to tables SA3, SA4 and SA5 which is aligned with the strategic objectives and goals of the municipality.

The following table highlights the IDP's five strategic focus area's and six municipal key strategic objectives for the 2024/25 – 2026/27 MTREF and further planning refinements that have directly informed the compilation of the budget.

Strategic Focus Area	National Key Performance Area	Strategic Objectives
Service to the people	Infrastructure Development and Basic Service Delivery	SO1: Provide, maintain and expand basic services to all people in the municipal area.
		SO2: Sustainable, safe and healthy environment.

Well-run Administration	Municipal Transformation and Organisational Development	SO5: Enabling a diverse and capacitated workforce.
Financial Sustainability	Municipal Financial Viability	SO6: Uphold sound financial management principles and practices.

2.3 - BUDGET-RELATED POLICIES OVERVIEW AND AMENDMENTS

A budget-related policy is a municipal policy affecting or affected by the Annual Budget of the municipality. These policies are necessary for effective financial management and the achievement of priorities and strategic goals of the community. The budget-related policies are reviewed annually during the budget preparation process.

Annexure G – 2024/25 MTREF Budget Policy Amendments provide a summary list of the budget-related policies, including the purpose, last approval date of the policy and if any amendments need to be approved by Council

2.4 - OVERVIEW OF BUDGET ASSUMPTIONS

The following budget assumptions were taken into consideration when preparing the 2024/25 Medium Term Expenditure Framework (MTREF):

- National Treasury's guidelines and macroeconomic policy;
- National, Provincial and Local economic conditions;
- The municipality's Integrated Development Plan (IDP);
- The Financial Recovery Plan;
- The Municipal Debt Relief Conditions;
- Grants allocated to the municipality in terms of National Division of Revenue Bill (B4-2024) (DoRA) and grants published in Provincial Gazette No. 8892 of 7 March 2024;
- Electricity tariff increases as approved by the National Electricity Regulator of South Africa (NERSA);
- Service charges tariff increases are proposed (electricity 11 per cent, water 6 per cent, sanitation 6.0 per cent and refuse 9.0 per cent);
- Property rates tariff increase by 6 per cent;
- Cash flow and revenue collections are projected on average at 90% of property rates and service charges.
- Other sundry tariffs will increase by 6%;
- The Salary and Wage Collective Agreement for the period 01 July 2021 to 30 June 2024 has come to an end and a new agreement is under consultation. Therefore, in the absence of any information in this regard from the South African Local Government Bargaining Council (SALGBC), Beaufort West municipality budgeted for employee related cost based on the salary scales applicable for the 2023/24 financial year as a baseline.
- Provision was made for a salary increase of 4.9 per cent based on CPI projected for 2024 and 4.6 per cent in 2025 and 2026 as well as of notch increase to those who qualify.
- The remuneration of staff amounts to 30.9 per cent of the total operating expenditure and 31.9 and 33 per cent for two outer years.
- The remuneration of the Municipal Manager and Senior Managers directly accountable to the Municipal Manager were budgeted in accordance with the actual cost published in the Government Gazette on the Local Government: Upper Limits of Total Remuneration Packages Payable to Municipal Managers and Managers Directly Accountable to Municipal Managers published by DCoG. Over the 2024/25 Medium Term Revenue & Expenditure Framework (MTREF) an increase of 4.9% in

the 2024/25 budget year and 4.6% for the two outer years as well as a performance bonus of 9%, capped on their annual packages.

- The of remuneration of councillors were budgeted in accordance with the actual cost approved in accordance with the Government Gazette on the Remuneration of Public Office Bearers Act: Determination of Upper Limits of Salaries, Allowances and Benefits of Different Members of Municipal Councils published annually by DCoG and were increased based on the projected CPI over the 2024/25 Medium Term Revenue & Expenditure Framework (MTREF).
- The National Energy Regulator of South Africa (NERSA) is responsible for the price determination of the bulk costs of electricity. There has been no change to the second year of the Multi-Year Price Determination (MYPD 5), as such bulk electricity costs are to be calculated using an increase of 12.7 per cent as per MYPD-5 in the 2024/25 financial year.
- Given the absence of an approved tariff increase for the two outer years of the MTEF, the increase is projected to be 15.7 per cent in 2025/26 and 4.6 per cent in 2026/27 based on the projected CPI.
- Bulk purchased for water were increased with CPI.
- Other expenditure items were increased in line with inflation whilst others were increase in line with existing contract conditions.

2.5 - OVERVIEW OF BUDGET FUNDING

FUNDING THE BUDGET

Section 18(1) of the MFMA states that an annual budget may only be funded from:

- Realistically anticipated revenues to be collected;
- Cash backed accumulated funds from previous years' surpluses not committed for other purposes; and
- Borrowed funds, but only for the capital budget referred to in section 17.

Achievement of this requirement in totality effectively means that a Council has 'balanced' its budget by ensuring that budgeted outflows will be offset by a combination of planned inflows as well as prior years' accumulated cash surpluses.

The Western Cape Provincial Government approved an intervention in Beaufort West Municipality in terms of section 139(5) of the Constitution. A mandatory Financial Recovery Plan (FRP) was approved and are now being implemented. When the 2024/25 Medium Term Revenue Expenditure (MTREF) budget was prepared the Financial Recovery Plan (FRP) targets, budget parameters was also taken into consideration.

The municipality applied for the municipal debt relief in terms of MFMA Circular 124 and approval was granted to the municipality. The municipality is now working on the conditions set out in the Circular to ensure that the Eskom Debt will be written off over the three year period. As a participant in the municipal debt relief programme the municipality will be benefit from the smart meter grant that will be rolled out to affected municipalities on the programme. The implementation of this will mean that metering issues will be resolved and revenue generated from water and electricity will increase over MTREF.

The operational and capital expenditure will be financed as follow:

Annexure A
Increases in Tariffs for Rates

Annexure A – Increases in Tariffs for Rates

1. Tariffs for Rates with effect from 1 July 2024:

1.1 the tariffs for property rates

Beaufort West, Merweville, Nelspoort and Murraysburg

The Rate in the Rand for Property Rates for 2024/2025 financial year are:

RATING CATEGORY	24/25 RATE IN RAND
Residential Properties	0.014250
Business Properties	0.028500
Industrial Properties	0.028500
Agricultural Properties	0.001247
Public service purposes	0.028500
National Monuments	0.014250
Mining Properties	0.028500
Multiple use Properties	As per allocation
Municipal Properties	0.0
Nature Reserve Properties	0.0
PSI	0.0
Vacant Land	0.017100
Public Benefit Organisations	0.003563

The rates levied per individual property will be calculated based on the value of that property and multiplied by the rate-in-rand set out in the document. Rebates are also taken into consideration.

RATES RATIOS

The residential category is used as the base rate. The rates ratio per rating category are:

RATING CATEGORY	RATIO TO RES (RES:RC)
Residential Properties	1:1
Business Properties	1:2
Industrial Properties	1:2
Agricultural Properties	1:0.09
Public service purposes	1:2
National Monuments	1:1
Municipal Properties	1:0
Nature Reserve Properties	1:0
PSI	1:0
Vacant Land	1:1.2
Public Benefit Organisations	1:0.25

EXEMPTIONS, REDUCTIONS AND REBATES

RESIDENTIAL PROPERTIES

The first R15 000,00 of the market value as per the valuation Roll on Residential Properties as set out in Section 17(1)(h) of the MPRA is exempted from paying property rates and a R 100 000 reduction for all residential properties with a market value less or equal to R190 000 as determined in the Rates Policy.

Rebates in respect of a category of owners of property are as follows:

Owners of National Monuments be levied at residential tariff provided that –

- The buildings are in a satisfactory condition, and
- The Director Engineering Services has during the second Month of each financial year submitted a report that the building is in a satisfactory condition in order that the municipality may consider whether to grant a rebate

AGRICULTURAL

As a result of, and considering, limited rate-funded services supplied to such properties in general, the contribution of agriculture to the local economy, the extent to which agriculture assists in meeting the service delivery and development obligations of the community, and the contribution of agriculture to the social and economic welfare of farm workers, the council bills a reduced rate (as set out below) in respect of properties subject to agricultural use.

This rate is reduced with 91% of the rate levied on Residential Properties, which rate on properties subject to agricultural use does not exceed the maximum ratio to the rate on Residential Property prescribed in the MPRA Rate Ratio Regulations.

Pensioners

Registered owners of Residential Properties who are pensioners qualify for special rebates according to gross monthly household income of all Pensioners permanently residing on that property. To qualify for the rebate a property owner must be the registered owner of a property which satisfies the requirements of the definition of residential Property. This property owner must on 1 July of the financial year:

- Occupy the property as his/her Primary Residence, and
- Be at least 60 years of age, or
- Has been declared medically unfit even if not yet 60 years of age, and
- Be in receipt of a gross monthly household income not exceeding the amount determined by Council during the Municipality's budgeted process.
- Must annually submit proof to the CFO that he or she is registered with the Department of Social Development as a recipient of an old age or disability grant or any other registered Pension fund.
- Market value of the property not exceeding R 1 100 000
 - R 2 205 and under - 30%
 - R 2 206 to R 6 000 - 20%
 - R 6 001 to R12 000 - 10%

An owner must annually provide credible proof of his or her economic/financial position to the CFO.
