3.1 Introduction

Section 71 of the MFMA states that the Accounting Officer of a Municipality must by no later than 10 working days after the end of each month submit to the mayor of the Municipality and the relevant Provincial Treasury in the prescribe format on the state of the Municipality's budget.

This report presents the current state of the budget implementation and reasons for variances and possible action to be taken.

3.2 Consolidated performance

3.2.1 Against annual budget

Total Revenue

The total revenue (excluding capital transfers and contributions) year-to-date accrued amounted to R 111,268 million at the end of September 2024. This was R 13,590 million or 11% below the year-to-date budget of R 124,857 million at the end of September 2024. The main reason for the overperformance in transfers and subsidies – operational was due to the first equitable share tranche that the municipality received during the month of July. Other revenue items are expected to increase as the year progress. Another revenue item that affected the performance of September was the fines, penalties and forfeits that were R 13,905 million or 76% below the year-to-date target R 18,297 million. This relate specifically to traffic fines and the iGRAP 1 treatment thereof.

The transfers and subsidies - capital (monetary allocations) year-to-date amounted to R 12,239 million at the end of September 2024. This was R 5,697 million above the year-to-date target of R 6,543 million at the end of September 2024. The main reason for the overperformance is due to the accelerated capital expenditure relating to the Municipal Infrastructure Grant (MIG). Transfers and subsidies - capital are expected to further increase once the capital budget gains momentum during financial year.

Refer to Table C4 for more detail on revenue by source.

Operating expenditure by type

The year to date total operational expenditure at the end of September 2024 amounted to R 107,283 million. This was R 5,067 million or 5% below year-to-date budget projections for September 2024.

Expenditure such as depreciation and amortization as well as debt impairment are only accounted for on a quarterly basis. The over expenditure on other expenditure is due to internal departmental consumption changes amounting to R 4,442 million as well as annual expenditure invoices that were raised in July. Although year-to-date expenditure is lower than expected at the end of September, expenditure is expected to increase as the financial year progress. The variance in debt impairment relate to traffic fines and the treatment of traffic fines in terms of iGRAP 1.

Refer to Table C4 for further details on expenditure by type.

Capital expenditure

Council approved a capital budget amounting to R 25,575 million for the 2024/2025 financial year. The capital expenditure for the month of September 2024 amounted to R 842 thousand. The year to date capital expenditure amounted to R 12,875 or 50% of the approved budget at the end of September 2024. The main reason for the high year to date expenditure is due to the accelerated capital expenditure relating to the Municipal Infrastructure Grant (MIG) projects. The capital budget is mostly funded from national grant allocations and as a result the expenditure is driven by the timing when the funding are received by the municipality. With supply chain process that are currently under way, expenditure is expected to further increase as the year progress.

Refer to Table C5 and SC12 for more detail on capital expenditure.

Cash flows

The municipality started the month of September with a positive net cash position of R 42,656.05 and an investment balance of R 31,163,838.91 million. The net cash position at the end of September 2024 amounted to R 2,492,904.99 positive as per bank statement and the investment balance amounted to R 25,694,836.58.

Refer to Table C7 for more detail on cash flows.

3.3 Material variances from SDBIP

Detailed / comments will be provided as part of the section 52 report of September 2024.

3.4 Remedial or corrective steps

- Revenue should be improved by fully implementing the adopted credit control and debt collection policies of the municipality as well as the revenue improvement initiatives outlined in the Financial Recovery Plan;
- Limit non-priority spending and implement stringent cost-containment measures;
- Reducing budget spent on cost of employment, specifically overtime and standby cost.

4.1.2 Table C2 Monthly Budget Statement - Financial Performance (standard classification)

This table reflects the operating budget (Financial Performance) in the standard classifications which are the Government Finance Statistics Functions and Sub-functions. These are used by National Treasury to assist the compilation of national and international accounts for comparison purposes, regardless of the unique organizational structures used by the different institutions.

The main functions are Governance and administration; Community and public safety; Economic and environmental services; and Trading services. It is for this reason that Financial Performance is reported in standard classification, Table C2, and by municipal vote, Table C3.

Dear Ms Gaarekwe and Municipal Manager

MFMA CIRCULAR NO. 124 - PROVINCIAL TREASURY CERTIFICATION OF MUNICIPAL COMPLIANCE OF WC053 BEAUFORT WEST MUNICIPALITY DURING AUGUST 2024

The National Treasury approved the debt relief application of Beaufort West Municipality with effect 1 July 2023. August 2024 constitutes the 2nd month of the Municipality's second 12-month debt relief compliance cycle. The Western Cape Provincial Treasury monitored and assessed the Municipality's compliance with all the debt relief conditions during August 2024. This letter provides an overview of the Provincial Treasury's assessment of the Municipality's compliance with the programme's conditions.

• Condition 6.1 - Municipality non-compliance

In terms of the National Treasury (NT) approval, the Municipality must comply with conditions 6.1 - 6.14 of MFMA Circular No. 124 read together with the additional conditions specific to the Municipality set-out in its National Treasury debt relief approval letter. From the Provincial Treasury's assessment, the Municipality achieved 95 per cent average compliance with the MFMA Circular No. 124 conditions during August 2024. Refer to the performance sheet in the table below that shows the Municipality's overall relief compliance

performance across the first two months of its second debt relief cycle. Considering the Municipality's consistent and timely payment of Eskom accounts as well as the overall debt relief performance since 1 July 2023. The Provincial Treasury is of the view that the Municipality is currently on track with debt relief compliance.

WC053 Beaufort West Municipality overall relief performance from 1 July 2024 up to and including August 2024:

As we enter the second month of the second cycle of the Municipal Debt Relief programme, it is crucial for Beaufort West Municipality to build on the progress made during the initial 12-month period. The National Treasury has emphasized that Eskom will only consider writing off arrear debt if the Municipality demonstrates consistent compliance with all conditions for a consecutive 12-month period. Therefore, the Municipality is encouraged to maintain and improve its compliance across all performance areas to ensure continued eligibility for debt relief.

Condition 6.2 - Application-based supported by Council's resolution

The Municipality's application was endorsed by the Council and approved by National Treasury, subject to addressing specified gaps. All of these have subsequently been addressed.

- Condition 6.3 - Maintaining the Eskom bulk current account.

The Municipality has made all bulk account payments timeously. However, alignment of data strings to proof of payments and invoices is still a challenge for the Municipality as discrepancies were identified between the two sources for electricity payments. The Provincial Treasury has been closely engaging and monitoring the Municipality in this regard to facilitate full compliance going forward. The Municipality indicated that the differences identified between the deposits and withdrawals will be corrected in next month's reporting.

Condition 6.4 - A funded MTREF

For purposes of the August 2024 compliance certificate, the Provincial Treasury assessed the compliance of the Municipality's tabled 2024/25 MTREF. The PT confirms its communication and related engagement with Beaufort West Municipality on 7 May 2024, to the effect that the 2024/25 MTREF tabled to council is **not** funded. The Municipality has a Financial Recovery Plan in place, and therefore does not need to adopt a separate Budget Funding Plan.

Condition 6.5 - Cost reflective tariffs

The Municipality submitted its completed NT Tariff Tool for the 2024/25 MTREF.

- **Condition 6.6 - Electricity and water as collection tools**

The Municipality met the requirements for this condition except for the restriction and/or interruption of water supply to defaulting consumers or property owner. The Municipality indicated that the majority of their meters are still conventional credit meters, capacity and financial constraints at the Municipality contribute to the low execution of this condition. PT will continue to engage them to ensure that they align to the requirements of MFMA Circular No. 124. The Municipality indicated that NT has not responded to the RT29 transversal tender clarification issue on smart pre-paid water meters as per debt relief conditions vs the conventional meters as stipulated in the tender.

- **Conditions 6.7 - Maintain a minimum average quarterly collection of property rates and services charges**

It is not end of quarter yet; however, the Municipality has achieved a collection rate of 86 per cent in August a 2 per cent drop when compared to the 88 per cent achieved in July 2024.

- **Condition 6.8 - Completeness of the Revenue Base**

The Municipality did not submit the property rates reconciliation tool.

- **Condition 6.9 - Monitor and Report on compliance** The Western Cape Provincial Treasury's assessment included confirming that the MFMA S71 narrative statement and mSCOA data strings for July 2024 was uploaded to the GoMuni portal and that the Statement fully aligns to the MFMA S71 Statement published on the Municipality's website. The MFMA S71 Statement was also assessed against the Municipal Budget-and Reporting Regulations, 2009 (MBRR) and the National Treasury MFMA S71 reporting guidance issued to debt relief municipalities on 10 May 2024 read in conjunction with paragraphs 9(i) to 9(ix) of the NT debt relief approval letter.

The Municipality has integrated its monthly debt compliance reporting into its MFMA S71 narratives as required and demonstrated its commitment to continuous improvement and adherence to the set of conditions. The Municipality's MFMA Circular No. 124 self-assessment indicated several non-compliance issues. The remedial actions undertaken to achieve compliance and the timeframes thereof outlined in the MFMA S71 report are noted and monitored by the Provincial Treasury.

- Condition 6.10 - Provincial Treasury certification of municipal compliance

Provincial Treasury closely monitors compliance with the conditions of the Municipal Debt Relief Programme, and this letter is submitted in fulfillment of the PT's role in certifying compliance of the Municipality.

- Condition 6.11 - Limitation on Municipal borrowing powers

The limitation on Municipality borrowing powers and the prohibition of borrowing during debt relief periods form a dual regulatory framework aimed at ensuring fiscal responsibility. Compliance necessitates meticulous scrutiny of borrowing activities to ascertain adherence to authorized limits and program guidelines. These measures, while promoting sustainable debt management, also stabilize the Municipality's financial standing, prevent over-leveraging, and mitigate immediate financial strain. Adhering to these regulations is paramount for maintaining creditworthiness, mitigating financial risks, and safeguarding the Municipality's long-term financial health. Thus, robust oversight and adherence to regulatory frameworks are imperative for prudent financial governance and sustained fiscal resilience.

The Municipality has complied with this condition since its debt relief effective date of 1 August 2023, to date.

- **Condition 6.12 - Proper management of resources and Condition 6.13 - Accounting Treatment**

It is noted that during February 2024, the National Treasury: Office of the Accountant General (OAG) issued the Supplementary Guide to MFMA Circular No. 124 on 21 February 2024. In terms of the guidance, the Municipality no longer has to maintain a separate bank account for debt relief purposes as envisaged in MFMA Circular No. 124 (Condition 6.12), however, irrespective of whether a Municipality decides to discontinue a separate bank account, ring-fencing for debt relief purposes must be enabled and demonstrated through the Municipality's monthly mSCOA data string submissions.

- **Condition 6.14 - NERSA License**

By having applied for Municipal Debt Relief, the council of a Municipality that during the duration of the Municipal Debt Relief programme fails to comply with any condition of the Relief, agreed to make an application to NERSA to voluntarily revoke the Municipality's license in terms of section 17 of the Electricity Regulation Act, 2006 (Act No. 4 of 2006). It is noted that this condition will only come into effect if the Municipality's participation in the debt relief programme is terminated.

12.7. The remedial actions necessary and / or undertaken to improve the municipality's monthly compliance in terms of the Debt relief Conditions.

| No | Condition | Remedial actions / Comments |
|-------|---|---|
| C 6.4 | A funded MTREF | The municipality's budget is not funded in terms of Section 18 of the MFMA and has to use FRP assumptions. It should be noted that the only valid budget is a Council-approved budget, and the legitimate ORGB of Beaufort West Municipality is funded based on PT and NT (MFRS) endorsed assumptions believed to be credible and achievable. |
| C 6.6 | Electricity and water as collection tools | The Municipality met the requirements for this condition except for the restriction and or interruption of water supply to defaulting consumers or property owner. Provincial Treasury did fund meters, but it should be noted that only 20% of the total water meters are pre-paid meters, with the balance being conventional credit meters or old token meters. The municipality does not have the capacity to restrict water, and cognisance should be taken of the risk due to political instability and the risk of increased water losses with mass illegal tampering. The only solution is Smart Pre-Paid Water Meters. |
| C 6.8 | Completeness of the Revenue Base | The Beaufort West Municipality implemented a new valuation roll on the 1st of July 2024. The municipality at this point is still busy with a reconciliation between financial system and the new General Valuation Roll (GVR) to ensure that there is alignment between the two. The municipality will submit the property rates reconciliation tool as well as the remedial action or steps to be taken if any variances are identified between the financial system and the new General Valuation Roll (GVR). |
