## **PART 1 – IN-YEAR REPORT**

### ***1. Mayor's Report***

#### **1.1 In-Year Report – Monthly Budget Statement**

##### **1.1.1 Implementation of the budget in accordance with the SDBIP**

No comments for April 2025.

##### **1.1.2 Financial problems or risks facing the municipality**

The current financial position of the municipality remains under pressure. The Western Cape Provincial Government approved an intervention in Beaufort West Municipality in terms of section 139(5) of the Constitution. A mandatory Financial Recovery Plan (FRP) was approved and are now being implemented. Directors are urged to identify and promote effectiveness and efficiencies within their respective directorates and to keep their expenditure within the approved budget.

##### **1.1.3 Other relevant information**

An adjustments budget was tabled in Council during February 2025 and was approved. This report contains the adjustments budget figures.

### ***2. Resolutions***

#### **IN-YEAR REPORT 2024/2025**

This is the report will be presented to Council at their next meeting:

#### **RECOMMENDATION:**

- a) That Council notes the monthly budget statement and any supporting documentation for April 2025;
- b) The non-compliance emanating from the municipality's debt relief self-assessment as well as the Provincial Treasury's independent assessment set-out in Section 12 of Annexure A;

- c) The remedial actions necessary and / or undertaken to improve the municipality's monthly compliance in terms of the Debt relief Conditions set-out in Section 12.7 of Annexure A; and
- d) The balance of the bulk Eskom and water accounts and the municipality's reconciliation of these accounts as set-out in Section 12.6 of Annexure A.

### **3. Executive Summary**

#### **3.1 Introduction**

Section 71 of the MFMA states that the Accounting Officer of a Municipality must by no later than 10 working days after the end of each month submit to the mayor of the Municipality and the relevant Provincial Treasury in the prescribe format on the state of the Municipality's budget.

This report presents the current state of the budget implementation and reasons for variances and possible action to be taken.

#### **3.2 Consolidated performance**

##### **3.2.1 Against annual budget**

###### **Total Revenue**

The total revenue (excluding capital transfers and contributions) year-to-date accrued amounted to R 332,012 million at the end of April 2025. This was R 81,740 million or 20% below the year-to-date budget of R 413,751 million at the end of April 2025. Other revenue items are expected to increase as the year progress. Another revenue item that affected the performance of April was the fines, penalties and forfeits that was R 54,487 million or 82% below the year-to-date target R 66,239 million. This relate specifically to traffic fines and the iGRAP 1 treatment of traffic fines. The municipality is currently participating in the municipal debt relief programme of National Treasury. The 25,587 million other gains relate to the first third write-off over a three year period. The municipality received the approval letter from National Treasury about the first third write-off. The transaction will be processed on the financial system once the write-off appear on the Bulk Eskom account of the municipality. This also affected the year to date performance negatively by R 21,323 million.

The transfers and subsidies - capital (monetary allocations) year-to-date amounted to R 20,066 million at the end of April 2025. This was R 3,337 million below the year-to-date adjusted target of R 23,404 million at the end of April 2025. Transfers and subsidies - capital are expected to increase in the last two months of the 2024/25 financial year.

Refer to Table C4 for more detail on revenue by source.

### **Operating expenditure by type**

The year to date total operational expenditure at the end of April 2025 amounted to R 322,185 million. This was R 89,589 million or 22% below year-to-date budget projections for April 2025. Although year-to-date expenditure is lower than expected at the end of April, expenditure is expected to increase as the financial year progress. The variance in debt impairment and irrecoverable debts written off relate to traffic fines and the treatment of traffic fines in terms of iGRAP 1.

Refer to Table C4 for further details on expenditure by type.

### **Capital expenditure**

Council approved a capital budget amounting to R 25,575 million for the 2024/2025 financial year. The capital budget was adjusted upwards by R 4,738 million to R 30,313 million with the February adjustments budget. The year to date capital expenditure amounted to R 20,227 or 67% of the approved adjusted budget at the end of April 2025. The capital budget is mostly funded from national and provincial grant allocations and as a result the expenditure is driven by the timing when the funding are received by the municipality. At the end of April 2025 most of the national and provincial grant were received as well as most of the supply chain process were concluded, expenditure is expected to further increase during the last quarter.

Refer to Table C5 and SC12 for more detail on capital expenditure.

### **Cash flows**

The municipality started the month of April with a positive net cash position of R 11,954,049.09 and an investment balance of R 35,340,617.66 million. The net cash position at the end of April 2025 amounted to R 390,665.84 positive as per bank statement and the investment balance amounted to R 36,147,525.76.

Refer to Table C7 for more detail on cash flows.

### **3.3 Material variances from SDBIP**

No comments for April 2025.

### **3.4 Remedial or corrective steps**

- Revenue should be improved by fully implementing the adopted credit control and debt collection policies of the municipality as well as the revenue improvement initiatives outlined in the Financial Recovery Plan;
- Limit non-priority spending and implement stringent cost-containment measures;
- Reducing budget spent on cost of employment, specifically overtime and standby cost.

## 4.1.2 Table C2 Monthly Budget Statement - Financial Performance (standard classification)

This table reflects the operating budget (Financial Performance) in the standard classifications which are the Government Finance Statistics Functions and Sub-functions. These are used by National Treasury to assist the compilation of national and international accounts for comparison purposes, regardless of the unique organizational structures used by the different institutions.

The main functions are Governance and administration; Community and public safety; Economic and environmental services; and Trading services. It is for this reason that Financial Performance is reported in standard classification, Table C2, and by municipal vote, Table C3.

Dear Ms Gaarekwe and Municipal Manager

## **MFMA CIRCULAR NO. 124 - PROVINCIAL TREASURY CERTIFICATION OF MUNICIPAL COMPLIANCE OF WC053 BEAUFORT WEST MUNICIPALITY DURING MARCH 2025**

The National Treasury approved the debt relief application of Beaufort West Municipality with effect 1 July 2023. March 2025 constitutes the 9<sup>th</sup> month of the Municipality's second 12-month debt relief compliance cycle. The Western Cape Provincial Treasury monitored and assessed the Municipality's compliance with all the debt relief conditions during March 2025. This letter provides an overview of the Provincial Treasury's assessment of the Municipality's compliance with the programme's conditions.

### **1. Condition 6.1 - Municipality non-compliance**

In terms of the National Treasury (NT) approval, the Municipality must comply with conditions 6.1 - 6.14 of MFMA Circular No. 124 read together with the additional conditions specific to the Municipality set-out in its National Treasury debt relief approval letter. From the Provincial Treasury's assessment, the Municipality achieved 95 per cent average compliance with the MFMA Circular No. 124 conditions during March 2025. Refer to the performance sheet in the table below that shows the Municipality's overall relief compliance performance across the debt relief cycle. Considering the Municipality's

consistent and timely payment of Eskom accounts as well as the overall debt relief performance since 1 July 2023, the Provincial Treasury is of the view that the Municipality is on track with debt relief compliance, **however, there are conditions that still needs to be met.**

WC053 Beaufort West Municipality overall relief performance from July 2024 up to and including March 2025:

As we review the ninth month of the second cycle of the Municipal Debt Relief programme, it is crucial for Beaufort West Municipality to build on the progress made during the initial 12-month period. The National Treasury has emphasized that Eskom will only consider writing off arrear debt if the Municipality demonstrates consistent compliance with all conditions for a consecutive 12-month period. Therefore, the Municipality is encouraged to maintain and improve its compliance across all performance areas to ensure continued eligibility for debt relief.

## 2. Condition 6.2 - Application-based supported by Council's resolution

The Municipality's application was endorsed by the Council and approved by National Treasury, subject to addressing specified gaps. All of these have subsequently been addressed.

## 3. Condition 6.3 - Maintaining the Eskom bulk current account.

The Municipality has made all bulk account payments timeously; and payments made reconcile to data strings for both water and electricity. The Provincial Treasury has been closely engaging and monitoring the Municipality in this regard to facilitate full compliance.

## 4. Condition 6.4 - A funded MTREF

The Provincial Treasury assessed the compliance of the Municipality's tabled 2025/26 MTREF to be **unfunded**. The Municipality has a Financial Recovery Plan in place and therefore does not need to adopt a separate Budget Funding Plan.

## 5. Condition 6.5 - Cost reflective tariffs

The Municipality did not submit its completed NT Tariff Tool for the 2025/26 MTREF tabled budget.

## **6. Condition 6.6 - Electricity and water as collection tools**

The Municipality met the requirements for this condition except for the restriction and/or interruption of water supply to defaulting consumers or property owner. The Municipality indicated that the majority of their meters are still conventional credit meters, capacity and financial constraints at the Municipality contribute to the low execution of this condition. PT will continue to engage them to ensure that they align to the requirements of MFMA Circular No. 124. The Municipality attended a Smart Meter Grant Workshop, on the 17 and 18 October 2024, at which National Treasury discussed the RT29 transversal tender and provided clarity on the issue of smart pre-paid water meters as per debt relief conditions vs the conventional meters as stipulated in the tender.

## **7. Conditions 6.7 - Maintain a minimum average quarterly collection of property rates and services charges**

The Municipality has achieved an average collection rate of 89 per cent at end of March 2025. The Provincial Treasury will continue to engage the Municipality in the need to improve collections in the fourth quarter to compensate for the poor performance in quarter two.

## **8. Condition 6.8 - Completeness of the Revenue Base**

The Municipality submitted the property rates reconciliation tool.

## **9. Condition 6.9 - Monitor and Report on compliance**

The Western Cape Provincial Treasury's assessment included confirming that the MFMA S71 narrative statement and mSCOA data strings for February 2025 was uploaded to the GoMuni portal and that the Statement fully aligns to the MFMA S71 Statement published on the Municipality's website. The MFMA S71 Statement was also assessed against the Municipal Budget-and Reporting Regulations, 2009 (MBRR) and the National Treasury MFMA S71 reporting guidance issued to debt relief municipalities on 10 May 2024 read in conjunction with paragraphs 9(i) to 9(ix) of the NT debt relief approval letter.

The assessment confirmed that the MFMA S71 narrative statement included the following information:

MFMA S71 Statement component		Compliance (Yes/No)
1.	<b>The Budget Performance Overview (paragraph 4) of the MFMA S71 statement</b> explicitly advised on the Municipality's progress in implementing the Municipality's budget and (where relevant also the budget funding plan) – where implementation is slow, the statement advised explicitly on progress, challenges and corrective actions.	Yes
2.	<b>The conclusion (paragraph 14) of the MFMA S71 statement</b> explicitly advised as part of the MFMA Circular No. 124: Condition 6.9 reporting - i. Any risk associated; and ii. The mitigating factors. with the implementation of the Municipality's Budget Funding Plan and/or Funded Budget.	Yes
3.	<b>Annexure B of the MFMA S71 statement included the following debt relief reporting components</b>	
3.1.1	The Municipality's MFMA Circular No. 124 self-assessment.	Yes
3.1.2	The self-assessment (refer 3.1.1 above) was included in the format of <b>MFMA Budget Circular No. 128 (Annexure B)</b> .	Yes
3.2	The Municipality's overall relief compliance across the months of its debt relief participation since its National Treasury debt relief approval effective date	Yes

MFMA S71 Statement component		Compliance (Yes/No)
3.3	The latest Provincial Treasury debt relief compliance certificate and report issued to the Municipality.	Yes
3.4.1	The Municipality's revenue collection performance: i. the overall performance graph; ii. Summary worksheet; and iii. Collection per ward indicating who supplies electricity in the ward	Yes
3.4.2	The revenue collection performance information (refer 3.4.2) was included in the format of <b>MFMA Budget Circular No. 128 (Annexure D)</b> .	Yes
3.5.1	The indigent management information	Yes
3.5.2	The indigent management information was included in the format of <b>MFMA Budget Circular No. 128 (Annexure C)</b> .	Yes
3.6.1	The summary of the Municipality's property rates reconciliation undertaken in the National Treasury format.	Yes
3.6.2	The Municipality's progress during the month against its planned corrective action to address any variances evident from the property rates reconciliation.	Yes
3.7.1	Any Eskom and Water (if the Municipality has the Water function) Bulk current account invoice(s) due and payable during the month of reporting	Yes
3.7.2	The Municipality's proof of payment of any such Eskom and/or Water Bulk current account invoice(s) during the month of reporting.	Yes
3.7.3	The Municipality's reconciliation statement for electricity and water (if it has the function) aligning to the MFMA S71 mSCOA data strings upload.	Yes
3.8	Recommendations noting explicitly the aforementioned debt relief reporting to the Mayor and/or Mayoral Committee meeting	Yes

The Municipality has integrated its monthly debt compliance reporting into its MFMA S71 narratives as required and demonstrated its commitment to continuous improvement and adherence to the set of conditions. The Municipality's MFMA Circular No. 124 self-assessment indicated several non-compliance issues. The remedial actions undertaken to achieve compliance, and the timeframes thereof outlined in the MFMA S71 report are noted and monitored by the Provincial Treasury.

#### 10. Condition 6.10 - Provincial Treasury certification of municipal compliance

The Provincial Treasury closely monitors compliance with the conditions of the Municipal Debt Relief Programme, and this letter is submitted in fulfillment of the PT's role in certifying compliance of the Municipality.

#### 11. Condition 6.11 - Limitation on Municipal borrowing powers

The limitation on Municipality borrowing powers and the prohibition of borrowing during debt relief periods form a dual regulatory framework aimed at ensuring fiscal responsibility. Compliance necessitates meticulous scrutiny of borrowing activities to ascertain adherence to authorized limits and program guidelines. These measures, while promoting sustainable debt management, also stabilize the Municipality's financial standing, prevent over-leveraging, and mitigate immediate financial strain. Adhering to these regulations is paramount for maintaining creditworthiness, mitigating financial risks, and safeguarding the Municipality's long-term financial health. Thus, robust oversight and adherence to regulatory frameworks are imperative for prudent financial governance and sustained fiscal resilience.

The Municipality has complied with this condition since its debt relief effective date of 1 July 2023, to date.

#### **12. Condition 6.12 - Proper management of resources**

It is noted that during February 2024, the National Treasury: Office of the Accountant General (OAG) issued the Supplementary Guide to MFMA Circular No. 124 on 21 February 2024. In terms of the guidance, the Municipality no longer has to maintain a separate bank account for debt relief purposes as envisaged in MFMA Circular No. 124 (Condition 6.12), however, irrespective of whether a Municipality decides to discontinue a separate bank account, ring-fencing for debt relief purposes must be enabled and demonstrated through the Municipality's monthly mSCOA data string submissions.

#### **13. Condition 6.13 - Accounting Treatment**

NT provided an outcome letter dated 6 December 2024 instructing Eskom to write off one third (1/3) of the municipal debt of Beaufort West to the value of R25 587 223.02. The debt write-off is to be affected in Eskom's financial system within 30 days from the date of this letter. Eskom is to align its accounting records and the municipality's Eskom statement(s) / invoice(s) to reflect the debt write-off within two (2) calendar months from the date of this letter.

#### **14. Condition 6.14 - NERSA License**

By having applied for Municipal Debt Relief, the council of a Municipality that during the duration of the Municipal Debt Relief programme fails to comply with any condition of the Relief, agreed to make an application to NERSA to voluntarily revoke the Municipality's license in terms of section 17 of the Electricity Regulation Act, 2006 (Act No. 4 of 2006). It is noted that this condition will only come into effect if the Municipality's participation in the debt relief programme is terminated.

## 15. Provincial Treasury Compliance Certification

The Provincial Treasury certifies that it monitored and assessed WC053 Beaufort West Municipality's compliance against the MFMA Circular No. 124 conditions and NT debt relief approval letter as set-out below in the PT's compliance certificate for the Municipality in relation to the period 1 – 31 March 2025:

---	--	-----------------------------------

The Western Cape Provincial Treasury's assessment and compliance certificate confirms that Beaufort West Municipality during March 2025 did not fully comply with all the MFMA Circular No. 124 conditions as elaborated on above. The Municipality must still address these non-compliance matters as overall compliance average amounts to **95 per cent**. The Municipality is urged to strengthen its implementation of the relief conditions to fully benefit from the relief.

The Provincial Treasury continues to appreciate the opportunity that the Municipal Debt Relief Programme provided to municipalities and is committed to supporting our municipalities to ensure that they comply with the conditions of the programme in order to derive the full benefit.

Yours sincerely

## 12.5 MFMA Circular 124 – Condition 6.8 (Completeness of the revenue base)

The Beaufort West Municipality implemented a new valuation roll on the 1<sup>st</sup> of July 2024. The municipality at this point is still busy with a reconciliation between financial system and the new General Valuation Roll (GVR) to ensure that there is alignment between the two.

See below the property rates reconciliation as well as the remedial action or steps to be taken to address the variances identified between the financial system and the new General Valuation Roll (GVR).

Valuation Roll Reconciliation Action Plan			Reporting Date 15 May 2025			
STATUS UPDATE & REMEDIAL ACTION TO BE TAKEN						
<ul style="list-style-type: none"> <li>- Only count rateable properties (exclude those rated together)</li> <li>- Placeholders loaded on the GV that explains the difference in Nr of properties (= Non-Rateable linked value (GV naming convention)</li> <li>- The category differences are many caused by the valuer adding a rateable category to the GV but various discrepancies and administrative errors were found.</li> <li>- <b>The consolidated Valuation Roll still did not include the finalization of the appeals process.</b></li> <li>- Over-billing is caused by the indifferent treatment of municipal owned residential property (properties still to be transferred) where some are being charged rent and others rates, while the GV reconciliation account for most of them as non-rateable municipal properties. Consistency in this regard is needed.</li> <li>- Placeholders to be removed will assist in addressing the difference between the number of properties.</li> <li>- Category discrepancies are being addressed.</li> <li>- The municipality levy all industrial properties as commercial and therefore the category difference with no monetary impact but should be addressed in 2025/26</li> <li>- The municipality over-bill by R47 217 but it is mainly caused by category differences with the main problem identified as State Owned is being overbilled with R6.7 million in property value, with PSI and Municipal Properties being incorrectly categorised on the Inzalo system.</li> <li>- Difference in value between the valuation roll and the Inzalo system has very little bearing on billing with main difference of R1399 000 being a municipal property.</li> </ul>						
<b>All errors have been identified and were reported to be fixed.</b>

## GENERAL ACCOUNT INFORMATION

### Conditions

- Electricity services are supplied, and this bill is rendered, in terms of Eskom's conditions of contract, as amended from time to time.

### Auto Increase in Debit Order Limit

- As a service, Debit Order limits will be increased by the average rate increase as announced by Eskom.

- Small power supplies:** In effecting payment pursuant to this invoice, I specifically agree that Eskom's Standard Prices (as amended and approved by the NERSA) and its Standard Conditions of Supply for Small Power users shall apply. Copies of the said documents are available on request from Eskom's Contact Centres. Any objection to the above shall be lodged with Eskom within 14 days of receipt of this invoice, which may result in Eskom terminating the supply.

### VAT Registration Number

- While we endeavour to ensure the information supplied is updated, Eskom Holdings Ltd accepts no responsibility for any incorrect VAT registration number of a CUSTOMER appearing on the invoice. Please advise Eskom of any change in your VAT registration number.

### Payment of Accounts

- Due Date means the date the electricity account is deemed to be received by the customer as provided for in the electricity supply agreement, failing which interest will be charged, from the Due Date to the date of payment, on the outstanding amount.
- Accounts are due and payable when rendered. The due date on the account is in respect of the current month's electricity consumption.
- Estimated readings will be automatically adjusted after the next actual meter reading.
- Payments may not be deferred.
- If going away, please pay in advance to cover any accounts which may become due in your absence.
- If there is a delay in the receipt of your account, please pay an average amount based on your last account and advise Eskom accordingly.
- All payments that are more than R3 500 per account per month made by either a credit card, debit card or cash will attract a bank fee charge recovery which will be debited to your next bill of account.

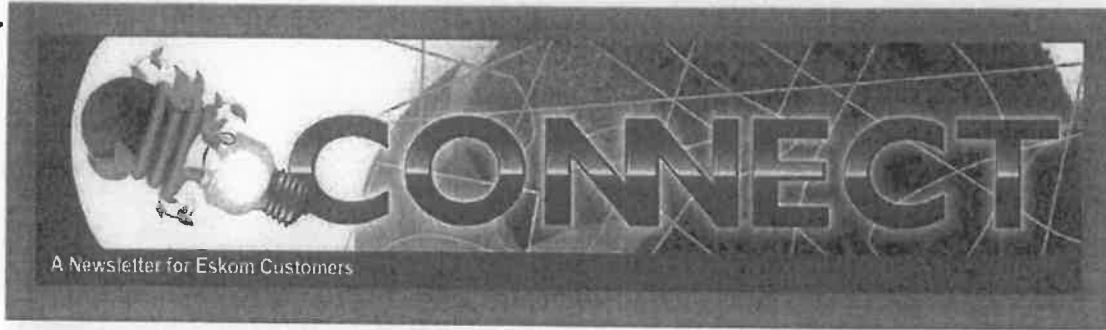

### Late Payments, Non Payments & Disconnection

- Interest is payable on overdue accounts.
- Eskom is entitled to disconnect supply for non-payment.
- In the event of a disconnection and in addition to the repayment of all outstanding amounts due, a disconnection/visit fee and additional deposit will become payable.
- Meter tampering is a criminal offence, punishable by law. In addition, charges associated with damage to Eskom property will be for your account.
- Your agreement may not be taken over by a 3rd party. You are legally liable for all charges reflected on this bill.

### Accounts Handed Over for Collection

- Eskom has contracted to National Debt Collectors for accounts handed over.
- All payments for accounts handed over are still payable to Eskom.
- Should the customer pay the debt collector directly and not into Eskom's account, then Eskom will not be held liable.

**PLEASE ADVISE ESKOM IF ANY OF YOUR DETAILS CHANGE OR ARE INCORRECTLY REFLECTED ON THIS BILL. PLEASE PHONE, E-MAIL, FAX OR MAIL THE INFORMATION TO US. DETAILS ON FRONT OF BILL. USE TEAR OFF SLIP ALONGSIDE. THE INFORMATION AS STATED ABOVE IS AVAILABLE, ON REQUEST, IN THE OFFICIAL LANGUAGE OF YOUR CHOICE.**

## FY2026 Eskom Standard Tariffs

Eskom tariffs to be implemented in 2025 are adjusted with the annual increase and updates to the tariff structures as approved by the National Energy Regulator of South Africa (NERSA) on 11 March 2025.

The changes to the tariff structures benefit customers by ushering in a stronger user-pay principle and removes previous unintended subsidies. Consequently, the FY2026 tariffs will support the transformation of the electricity supply industry and distribution services whilst supporting security of supply, affordability and equity.

Eskom direct customers tariffs will increase by 12.74% effective on 1 April 2025 and tariffs for municipal bulk purchases will increase by 11.32% effective on 1 July 2025 as detailed in Table 1.

Standard Tariff annual average increase	12.74%
Local authority tariffs (municipal) effective 1 July 2025	11.32%
Municflex, Municrate, Public Lighting, Gen-Wheeling, Gen-Purchase	
Eskom direct customers effective 1 April 2025	12.74%
<b>Eskom large power urban tariffs</b>	
Megaflex, Miniflex, Nightsave Urban, WEPS, Megaflex Gen, Gen-Wheeling, Gen-offset, Gen-purchase	
<b>Other urban</b>	
Businessrate, Public Lighting	12.74%
<b>Rural</b>	
Ruraflex, Ruraflex Gen, Nightsave Rural, Landrate, Landlight, Gen-Wheeling, Gen-Offset	12.74%
<b>Residential</b>	
Homelight 20A, Homelight 60A	12.74%
Homepower and Homeflex, Gen - Offset Homeflex	

**The changes to tariff structures are as follows:**

### Energy charges

They are unbundled from the previous all-inclusive energy c/kWh and now include separate legacy c/kWh and R/kVA generation capacity charge (GCC). The decoupling of energy cost recovery into separate charges enables all to pay for the provision of capacity and simplifies the comparison to electricity generation

alternatives. The only tariff that does not have this unbundled energy structure is the Homelight residential tariff.

#### **Time of use tariffs**

The ratios, prices, and periods were adjusted to better align the time-of-use signals to the National System Operator whilst meeting industry, mining and commerce needs. The ratio of peak high-demand to off-peak low-demand reduced from 8:1 to 6:1. Evening peak hours increased from 2 to 3 hours whilst morning peak hours were reduced from 3 hours to 2 hours. A new 2-hour standard period on Sunday evenings was introduced.

#### **Service charges**

Large power user (LPU) tariffs service charges are now based on point of delivery (POD) and not per account.

#### **Residential tariffs**

The tariffs no longer have an inclining block structure (IBT). Homelight tariffs have a single c/kWh rate. Homepower tariffs are unbundled into separate cost reflective energy, network, and retail (service and administration) charges.

#### **Wheeling and offset tariffs**

Wheeling customers can now fairly contribute to inter-tariff subsidies from the removal of the affordability subsidy credit for wheeled energy in the Gen-Wheeling and Gen-Offset tariffs.

#### **Transmission loss factors**

The loss factors for transmission connected customers are no longer negative and reflect the costs associated with the configuration of the network.

#### **Municipal tariffs**

Load (customer) tariffs are consolidated into 3 tariff options from the previous 10.

Large power user (LPU) tariffs are consolidated into a new Municflex tariff and small power user (SPU) tariff into a new Municrate tariff.

#### **Future tariff changes approved by the NERSA**

The new Generation Capacity Charge (GCC) will be updated in FY2027 and FY2028 to implement the NERSA decision to phase it in over a three-year period. Residential fixed costs for retail will be further phased in over FY2027 and FY2028.

The comparison of the FY2026 tariffs to current tariffs may vary due to the changes in tariff structures. For example, large industry, mining, commercial, and rural customers will experience an overall reduction in fixed charges and winter energy time-of-use prices.

For tools to analyse changes to the tariff rates and structures, to access the Schedule of Standard Prices and the tariff rates in Excel format, please visit: [www.eskom.co.za/tariffs](http://www.eskom.co.za/tariffs)

## BILL PAYMENTS OPTIONS

### Debit Order

- Avoid queues, late payments, the risk of your service being disconnected and the possibility of having to pay interest.
- Should you choose to pay your account by debit order, please contact the Contact Centre on the number or address given on the front of this bill.
- You set a limit on your Debit Order, so that you can keep control.
- Should your Debit Order details change, please contact the Contact Centre on the number or address given on the front of this bill.

### Direct Deposits

- Make direct deposits or transfers at bank counters and ATM's.
- Eskom's banking details may be found on the front of this bill.
- Ensure that your Eskom account number is used as a reference for the Direct Deposit.

### Collection Agencies

#### Pay your bill at:

- Any Pick n Pay store, Hypermarkets, Family stores, Spar or any other retail outlet that provides EasyPay and Pay@ services.
- Shoprite/Checkers Money Market Kiosks and Foodworld stores.
- Take note that SAPO branches are utilized for payments by one of our main Agents.
- Take your bill with you when making a payment through one of our Agencies.
- Please note that certain restrictions apply to the form of payments that may be tendered. (i.e. cash, cheques or credit cards, depending on the particular agency).

### Internet Payments

#### Internet Payments can be made:

- Through your own Bank's web site (contact your bank for more information).
- Through the collection agent's web site.
- Ensure that your Eskom account number is used in the reference field at all times.

### Telephonic Payments

- Use your banks phone-in services to transfer payments to Eskom from your Bank account (contact your Bank for more information).
- Credit card payments can be made by calling the Eskom Contact Centre number given on the front of this bill.

### Multiple Account Payments

- If multiple payments are made to one account, please send a breakdown of each account together with amounts to the Contact Centre shown on the front of this bill. To prevent interest accruing, or disconnections on these accounts, schedules should be sent immediately.

### Postal Payments (No post-dated cheques will be accepted)

- Cheques, made payable to Eskom Holding SOC Ltd and marked "Not Transferable" between two parallel lines, can be mailed to the postal address shown on the front of this bill. Eskom does not support this channel and may charge for this channel of payment.

### GENERAL ACCOUNT INFORMATION

#### Conditions

- Electricity services are supplied, and this bill is rendered, in terms of Eskom's conditions of contract, as amended from time to time.

#### Auto Increase In Debit Order Limit

- As a service, Debit Order limits will be increased by the average rate increase as announced by Eskom.

- Small power supplies; in effecting payment pursuant to this invoice, I specifically agree that Eskom's Standard Prices (as amended and approved by the NERSA) and its Standard Conditions of Supply for Small Power users shall apply. Copies of the said documents are available on request from Eskom's Contact Centres. Any objection to the above shall be lodged with Eskom within 14 days of receipt of this invoice, which may result in Eskom terminating the supply.

#### VAT Registration Number

- While we endeavour to ensure the information supplied is updated, Eskom Holdings Ltd accepts no responsibility for any incorrect VAT registration number of a CUSTOMER appearing on the invoice. Please advise Eskom of any change in your VAT registration number.

#### Payment of Accounts

- Due Date means the date the electricity account is deemed to be received by the customer as provided for in the electricity supply agreement.
- Final Payment Date means the date by when the customer's payment of the full invoiced amount must be reflected in Eskom's bank account, failing which interest will be charged, from the Due Date to the date of payment, on the outstanding amount.
- Accounts are due and payable when rendered. The due date on the account is in respect of the current month's electricity consumption.
- Estimated readings will be automatically adjusted after the next actual meter reading.
- Payments may not be deferred.
- If going away, please pay in advance to cover any accounts which may become due in your absence.
- If there is a delay in the receipt of your account, please pay an average amount based on your last account and advise Eskom accordingly.
- All payments that are more than R3 500 per account per month made by either a credit card, debit card or cash will attract a bank fee charge recovery which will be debited to your next bill of account.

#### Late Payments, Non Payments & Disconnection

- Interest is payable on overdue accounts.
- Eskom is entitled to disconnect supply for non-payment.
- In the event of a disconnection and in addition to the repayment of all outstanding amounts due, a disconnection/visit fee and additional deposit will become payable.
- Meter tampering is a criminal offence, punishable by law. In addition, charges associated with damage to Eskom property will be for your account.
- Your agreement may not be taken over by a 3rd party. You are legally liable for all charges reflected on this bill.

#### Accounts Handled Over for Collection

- Eskom has contracted to National Debt Collectors for accounts handed over.
- All payments for accounts handed over are still payable to Eskom.
- Should the customer pay the debt collector directly and not into Eskom's account, then Eskom will not be held liable.

PLEASE ADVISE ESKOM IF ANY OF YOUR DETAILS CHANGE OR ARE INCORRECTLY REFLECTED ON THIS BILL PLEASE PHONE, E-MAIL, FAX OR MAIL THE INFORMATION TO US. DETAILS ON FRONT OF BILL. USE TEAR OFF SLIP ALONGSIDE.

## GENERAL ACCOUNT INFORMATION

### Conditions

- Electricity services are supplied, and this bill is rendered, in terms of Eskom's conditions of contract, as amended from time to time.

### Auto Increase in Debit Order Limit

- As a service, Debit Order limits will be increased by the average rate increase as announced by Eskom.

- **Small power supplies;** in effecting payment pursuant to this invoice, I specifically agree that Eskom's Standard Prices (as amended and approved by the NERSA) and its Standard Conditions of Supply for Small Power users shall apply. Copies of the said documents are available on request from Eskom's Contact Centres. Any objection to the above shall be lodged with Eskom within 14 days of receipt of this invoice, which may result in Eskom terminating the supply.

### VAT Registration Number

- While we endeavour to ensure the information supplied is updated, Eskom Holdings Ltd accepts no responsibility for any incorrect VAT registration number of a CUSTOMER appearing on the invoice. Please advise Eskom of any change in your VAT registration number.

### Payment of Accounts

- Due Date means the date the electricity account is deemed to be received by the customer as provided for in the electricity supply agreement failing which interest will be charged, from the Due Date to the date of payment, on the outstanding amount.
- Accounts are due and payable when rendered. The due date on the account is in respect of the current month's electricity consumption.
- Estimated readings will be automatically adjusted after the next actual meter reading.
- Payments may not be deferred.
- If going away, please pay in advance to cover any accounts which may become due in your absence.
- If there is a delay in the receipt of your account, please pay an average amount based on your last account and advise Eskom accordingly.
- All payments that are more than R3 500 per account per month made by either a credit card, debit card or cash will attract a bank fee charge recovery which will be debited to your next bill of account.

### Late Payments, Non Payments & Disconnection

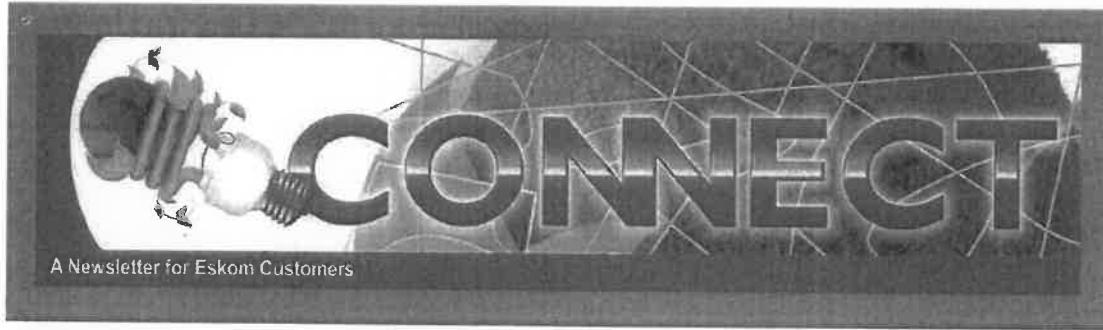

- Interest is payable on overdue accounts.
- Eskom is entitled to disconnect supply for non-payment.
- In the event of a disconnection and in addition to the repayment of all outstanding amounts due, a disconnection/visit fee and additional deposit will become payable.
- Meter tampering is a criminal offence, punishable by law. In addition, charges associated with damage to Eskom property will be for your account.
- Your agreement may not be taken over by a 3rd party. You are legally liable for all charges reflected on this bill.

### Accounts Handed Over for Collection

- Eskom has contracted to National Debt Collectors for accounts handed over.
- All payments for accounts handed over are still payable to Eskom.
- Should the customer pay the debt collector directly and not into Eskom's account, then Eskom will not be held liable.

PLEASE ADVISE ESKOM IF ANY OF YOUR DETAILS CHANGE OR ARE INCORRECTLY REFLECTED ON THIS BILL. PLEASE PHONE, E-MAIL, FAX OR MAIL THE INFORMATION TO US. DETAILS ON FRONT OF BILL. USE TEAR OFF SLIP ALONGSIDE.

THE INFORMATION AS STATED ABOVE IS AVAILABLE, ON REQUEST, IN THE OFFICIAL LANGUAGE OF YOUR CHOICE.

## FY2026 Eskom Standard Tariffs

Eskom tariffs to be implemented in 2025 are adjusted with the annual increase and updates to the tariff structures as approved by the National Energy Regulator of South Africa (NERSA) on 11 March 2025.

The changes to the tariff structures benefit customers by ushering in a stronger user-pay principle and removes previous unintended subsidies. Consequently, the FY2026 tariffs will support the transformation of the electricity supply industry and distribution services whilst supporting security of supply, affordability and equity.

Eskom direct customers tariffs will increase by 12.74% effective on 1 April 2025 and tariffs for municipal bulk purchases will increase by 11.32% effective on 1 July 2025 as detailed in Table 1.

Standard Tariff annual average increase	12.74%
Local authority tariffs (municipal) effective 1 July 2025	11.32%
Muniflex, Municrate, Public Lighting, Gen-Wheeling, Gen-Purchase	
Eskom direct customers effective 1 April 2025	12.74%
<b>Eskom large power urban tariffs</b>	
Megaflex, Miniflex, Nightsave Urban, WEPS, Megaflex Gen, Gen-Wheeling, Gen-offset, Gen-purchase	
<b>Other urban</b>	
Businessrate, Public Lighting	12.74%
<b>Rural</b>	
Ruraflex, Ruraflex Gen, Nightsave Rural, Landrate, Landlight, Gen-Wheeling, Gen-Offset	12.74%
<b>Residential</b>	
Homelight 20A, Homelight 60A	12.74%
Homepower and Homeflex, Gen - Offset Homeflex	

### The changes to tariff structures are as follows:

#### Energy charges

They are unbundled from the previous all-inclusive energy c/kWh and now include separate legacy c/kWh and R/kVA generation capacity charge (GCC). The decoupling of energy cost recovery into separate charges enables all to pay for the provision of capacity and simplifies the comparison to electricity generation

alternatives. The only tariff that does not have this unbundled energy structure is the Homelight residential tariff.

#### **Time of use tariffs**

The ratios, prices, and periods were adjusted to better align the time-of-use signals to the National System Operator whilst meeting industry, mining and commerce needs. The ratio of peak high-demand to off-peak low-demand reduced from 8:1 to 6:1. Evening peak hours increased from 2 to 3 hours whilst morning peak hours were reduced from 3 hours to 2 hours. A new 2-hour standard period on Sunday evenings was introduced.

#### **Service charges**

Large power user (LPU) tariffs service charges are now based on point of delivery (POD) and not per account.

#### **Residential tariffs**

The tariffs no longer have an inclining block structure (IBT). Homelight tariffs have a single c/kWh rate. Homepower tariffs are unbundled into separate cost reflective energy, network, and retail (service and administration) charges.

#### **Wheeling and offset tariffs**

Wheeling customers can now fairly contribute to inter-tariff subsidies from the removal of the affordability subsidy credit for wheeled energy in the Gen-Wheeling and Gen-Offset tariffs.

#### **Transmission loss factors**

The loss factors for transmission connected customers are no longer negative and reflect the costs associated with the configuration of the network.

#### **Municipal tariffs**

Load (customer) tariffs are consolidated into 3 tariff options from the previous 10. Large power user (LPU) tariffs are consolidated into a new Municflex tariff and small power user (SPU) tariff into a new Municrate tariff.

#### **Future tariff changes approved by the NERSA**

The new Generation Capacity Charge (GCC) will be updated in FY2027 and FY2028 to implement the NERSA decision to phase it in over a three-year period. Residential fixed costs for retail will be further phased in over FY2027 and FY2028.

The comparison of the FY2026 tariffs to current tariffs may vary due to the changes in tariff structures. For example, large industry, mining, commercial, and rural customers will experience an overall reduction in fixed charges and winter energy time-of-use prices.

## FY2026 Eskom Standard Tariffs

Eskom tariffs to be implemented in 2025 are adjusted with the annual increase and updates to the tariff structures as approved by the National Energy Regulator of South Africa (NERSA) on 11 March 2025.

The changes to the tariff structures benefit customers by ushering in a stronger user-pay principle and removes previous unintended subsidies. Consequently, the FY2026 tariffs will support the transformation of the electricity supply industry and distribution services whilst supporting security of supply, affordability and equity.

Eskom direct customers tariffs will increase by 12.74% effective on 1 April 2025 and tariffs for municipal bulk purchases will increase by 11.32% effective on 1 July 2025 as detailed in Table 1.

Standard Tariff annual average increase	12.74%
Local authority tariffs (municipal) effective 1 July 2025	11.32%
Municflex, Municrate, Public Lighting, Gen-Wheeling, Gen-Purchase	
Eskom direct customers effective 1 April 2025	12.74%
<b>Eskom large power urban tariffs</b>	
Megaflex, Miniflex, Nightsave Urban, WEPS, Megaflex Gen, Gen-Wheeling, Gen-offset, Gen-purchase	
<b>Other urban</b>	
Businessrate, Public Lighting	12.74%
<b>Rural</b>	
Ruraflex, Ruraflex Gen, Nightsave Rural, Landrate, Landlight, Gen-Wheeling, Gen-Offset	12.74%
<b>Residential</b>	
Homelight 20A, Homelight 60A	12.74%
Homepower and Homeflex, Gen - Offset Homeflex	

**The changes to tariff structures are as follows:**

### Energy charges

They are unbundled from the previous all-inclusive energy c/kWh and now include separate legacy c/kWh and R/kVA generation capacity charge (GCC). The decoupling of energy cost recovery into separate charges enables all to pay for the provision of capacity and simplifies the comparison to electricity generation

alternatives. The only tariff that does not have this unbundled energy structure is the Homelight residential tariff.

#### **Time of use tariffs**

The ratios, prices, and periods were adjusted to better align the time-of-use signals to the National System Operator whilst meeting industry, mining and commerce needs. The ratio of peak high-demand to off-peak low-demand reduced from 8:1 to 6:1. Evening peak hours increased from 2 to 3 hours whilst morning peak hours were reduced from 3 hours to 2 hours. A new 2-hour standard period on Sunday evenings was introduced.

#### **Service charges**

Large power user (LPU) tariffs service charges are now based on point of delivery (POD) and not per account.

#### **Residential tariffs**

The tariffs no longer have an inclining block structure (IBT). Homelight tariffs have a single c/kWh rate. Homepower tariffs are unbundled into separate cost reflective energy, network, and retail (service and administration) charges.

#### **Wheeling and offset tariffs**

Wheeling customers can now fairly contribute to inter-tariff subsidies from the removal of the affordability subsidy credit for wheeled energy in the Gen-Wheeling and Gen-Offset tariffs.

#### **Transmission loss factors**

The loss factors for transmission connected customers are no longer negative and reflect the costs associated with the configuration of the network.

#### **Municipal tariffs**

Load (customer) tariffs are consolidated into 3 tariff options from the previous 10. Large power user (LPU) tariffs are consolidated into a new Municflex tariff and small power user (SPU) tariff into a new Municrate tariff.

#### **Future tariff changes approved by the NERSA**

The new Generation Capacity Charge (GCC) will be updated in FY2027 and FY2028 to implement the NERSA decision to phase it in over a three-year period. Residential fixed costs for retail will be further phased in over FY2027 and FY2028.

The comparison of the FY2026 tariffs to current tariffs may vary due to the changes in tariff structures. For example, large industry, mining, commercial, and rural customers will experience an overall reduction in fixed charges and winter energy time-of-use prices.

Eskom large power urban tariffs	
<i>Megaflex, Miniflex, Nightsave Urban, WEPS, Megaflex Gen, Gen-Wheeling, Gen-offset, Gen-purchase</i>	
Other urban	
<i>Businessrate, Public Lighting</i>	12.74%
Rural	
<i>Ruraflex, Ruraflex Gen, Nightsave Rural, Landrate, Landlight, Gen-Wheeling, Gen-Offset</i>	12.74%
Residential	
<i>Homelight 20A, Homelight 60A, Homepower and Homeflex, Gen - Offset Homeflex</i>	12.74%

**The changes to tariff structures are as follows:**

### Energy charges

They are unbundled from the previous all-inclusive energy c/kWh and now include separate legacy c/kWh and R/kVA generation capacity charge (GCC). The decoupling of energy cost recovery into separate charges enables all to pay for the provision of capacity and simplifies the comparison to electricity generation

alternatives. The only tariff that does not have this unbundled energy structure is the Homelight residential tariff.

#### **Time of use tariffs**

The ratios, prices, and periods were adjusted to better align the time-of-use signals to the National System Operator whilst meeting industry, mining and commerce needs. The ratio of peak high-demand to off-peak low-demand reduced from 8:1 to 6:1. Evening peak hours increased from 2 to 3 hours whilst morning peak hours were reduced from 3 hours to 2 hours. A new 2-hour standard period on Sunday evenings was introduced.

#### **Service charges**

Large power user (LPU) tariffs service charges are now based on point of delivery (POD) and not per account.

#### **Residential tariffs**

The tariffs no longer have an inclining block structure (IBT). Homelight tariffs have a single c/kWh rate. Homepower tariffs are unbundled into separate cost reflective energy, network, and retail (service and administration) charges.

#### **Wheeling and offset tariffs**

Wheeling customers can now fairly contribute to inter-tariff subsidies from the removal of the affordability subsidy credit for wheeled energy in the Gen-Wheeling and Gen-Offset tariffs.

#### **Transmission loss factors**

The loss factors for transmission connected customers are no longer negative and reflect the costs associated with the configuration of the network.

#### **Municipal tariffs**

Load (customer) tariffs are consolidated into 3 tariff options from the previous 10.

Large power user (LPU) tariffs are consolidated into a new Municflex tariff and small power user (SPU) tariff into a new Municrate tariff.

#### **Future tariff changes approved by the NERSA**

The new Generation Capacity Charge (GCC) will be updated in FY2027 and FY2028 to implement the NERSA decision to phase it in over a three-year period. Residential fixed costs for retail will be further phased in over FY2027 and FY2028.

The comparison of the FY2026 tariffs to current tariffs may vary due to the changes in tariff structures. For example, large industry, mining, commercial, and rural customers will experience an overall reduction in fixed charges and winter energy time-of-use prices.

## GENERAL ACCOUNT INFORMATION

### Conditions

- Electricity services are supplied, and this bill is rendered, in terms of Eskom's conditions of contract, as amended from time to time.

### Auto Increase in Debit Order Limit

- As a service, Debit Order limits will be increased by the average rate increase as announced by Eskom.
- Small power supplies:** in effecting payment pursuant to this invoice, I specifically agree that Eskom's Standard Prices (as amended and approved by the NERSA) and its Standard Conditions of Supply for Small Power users shall apply. Copies of the said documents are available on request from Eskom's Contact Centres. Any objection to the above shall be lodged with Eskom within 14 days of receipt of this invoice, which may result in Eskom terminating the supply.

### VAT Registration Number

- While we endeavour to ensure the information supplied is updated, Eskom Holdings Ltd accepts no responsibility for any incorrect VAT registration number of a CUSTOMER appearing on the invoice. Please advise Eskom of any change in your VAT registration number.

### Payment of Accounts

- Due Date** means the date the electricity account is deemed to be received by the customer as provided for in the electricity supply agreement failing which interest will be charged, from the Due Date to the date of payment, on the outstanding amount.
- Accounts are due and payable when rendered. The due date on the account is in respect of the current month's electricity consumption.
- Estimated readings will be automatically adjusted after the next actual meter reading.
- Payments may not be deferred.
- If going away, please pay in advance to cover any accounts which may become due in your absence.
- If there is a delay in the receipt of your account, please pay an average amount based on your last account and advise Eskom accordingly.
- All payments that are more than R3 500 per account per month made by either a credit card, debit card or cash will attract a bank fee charge recovery which will be debited to your next bill of account.

### Late Payments, Non Payments & Disconnection

- Interest is payable on overdue accounts.
- Eskom is entitled to disconnect supply for non-payment.
- In the event of a disconnection and in addition to the repayment of all outstanding amounts due, a disconnection/visit fee and additional deposit will become payable.
- Meter tampering is a criminal offence, punishable by law. In addition, charges associated with damage to Eskom property will be for your account.
- Your agreement may not be taken over by a 3rd party. You are legally liable for all charges reflected on this bill.

### Accounts Handed Over for Collection

- Eskom has contracted to National Debt Collectors for accounts handed over.
- All payments for accounts handed over are still payable to Eskom.
- Should the customer pay the debt collector directly and not into Eskom's account, then Eskom will not be held liable.

**PLEASE ADVISE ESKOM IF ANY OF YOUR DETAILS CHANGE OR ARE INCORRECTLY REFLECTED ON THIS BILL. PLEASE PHONE, E-MAIL, FAX OR MAIL THE INFORMATION TO US. DETAILS ON FRONT OF BILL. ## FY2026 Eskom Standard Tariffs

Eskom tariffs to be implemented in 2025 are adjusted with the annual increase and updates to the tariff structures as approved by the National Energy Regulator of South Africa (NERSA) on 11 March 2025.

The changes to the tariff structures benefit customers by ushering in a stronger user-pay principle and removes previous unintended subsidies. Consequently, the FY2026 tariffs will support the transformation of the electricity supply industry and distribution services whilst supporting security of supply, affordability and equity.

Eskom direct customers tariffs will increase by 12.74% effective on 1 April 2025 and tariffs for municipal bulk purchases will increase by 11.32% effective on 1 July 2025 as detailed in Table 1.

Standard Tariff annual average increase	12.74%
Local authority tariffs (municipal) effective 1 July 2025	11.32%
Municflex, Municrate, Public Lighting, Gen-Wheeling, Gen-Purchase	
Eskom direct customers effective 1 April 2025	12.74%
<b>Eskom large power urban tariffs</b>	
Megaflex, Miniflex, Nightsave Urban, WEPS, Megaflex Gen, Gen-Wheeling, Gen-offset, Gen-purchase	
<b>Other urban</b>	
Businessrate, Public Lighting	12.74%
<b>Rural</b>	
Ruraflex, Ruraflex Gen, Nightsave Rural, Landrate, Landlight, Gen-Wheeling, Gen-Offset	12.74%
<b>Residential</b>	
Homelight 20A, Homelight 60A	12.74%
Homepower and Homeflex, Gen - Offset Homeflex	

**The changes to tariff structures are as follows:**

### Energy charges

They are unbundled from the previous all-inclusive energy c/kWh and now include separate legacy c/kWh and R/kVA generation capacity charge (GCC). The decoupling of energy cost recovery into separate charges enables all to pay for the provision of capacity and simplifies the comparison to electricity generation

alternatives. The only tariff that does not have this unbundled energy structure is the Homelight residential tariff.

#### **Time of use tariffs**

The ratios, prices, and periods were adjusted to better align the time-of-use signals to the National System Operator whilst meeting industry, mining and commerce needs. The ratio of peak high-demand to off-peak low-demand reduced from 8:1 to 6:1. Evening peak hours increased from 2 to 3 hours whilst morning peak hours were reduced from 3 hours to 2 hours. A new 2-hour standard period on Sunday evenings was introduced.

#### **Service charges**

Large power user (LPU) tariffs service charges are now based on point of delivery (POD) and not per account.

#### **Residential tariffs**

The tariffs no longer have an inclining block structure (IBT). Homelight tariffs have a single c/kWh rate. Homepower tariffs are unbundled into separate cost reflective energy, network, and retail (service and administration) charges.

#### **Wheeling and offset tariffs**

Wheeling customers can now fairly contribute to inter-tariff subsidies from the removal of the affordability subsidy credit for wheeled energy in the Gen-Wheeling and Gen-Offset tariffs.

#### **Transmission loss factors**

The loss factors for transmission connected customers are no longer negative and reflect the costs associated with the configuration of the network.

#### **Municipal tariffs**

Load (customer) tariffs are consolidated into 3 tariff options from the previous 10.

Large power user (LPU) tariffs are consolidated into a new Municflex tariff and small power user (SPU) tariff into a new Municrate tariff.

#### **Future tariff changes approved by the NERSA**

The new Generation Capacity Charge (GCC) will be updated in FY2027 and FY2028 to implement the NERSA decision to phase it in over a three-year period. Residential fixed costs for retail will be further phased in over FY2027 and FY2028.

The comparison of the FY2026 tariffs to current tariffs may vary due to the changes in tariff structures. For example, large industry, mining, commercial, and rural customers will experience an overall reduction in fixed charges and winter energy time-of-use prices.

**12.7. The remedial actions necessary and / or undertaken to improve the municipality's monthly compliance in terms of the Debt relief Conditions.**

No	Condition	Remedial actions / Comments
C 6.4	A funded MTREF	The Municipality tabled an adjustments budget on the 27 <sup>th</sup> of February 2025. The budget on B8 indicated a funded budget. Provincial Treasury did their assessment and found that the adjustments budget is still unfunded.
C 6.6	Electricity and water as collection tools	The Municipality met the requirements for this condition except for the restriction and or interruption of water supply to defaulting consumers or property owner. Provincial Treasury did fund meters, but it should be noted that only 20% of the total water meters are pre-paid meters, with the balance being conventional credit meters or old token meters. The municipality does not have the capacity to restrict water, and cognisance should be taken of the risk due to political instability and the risk of increased water losses with mass illegal tampering. The only solution is Smart Pre-Paid Water Meters.
C 6.8	Completeness of the Revenue Base	The Beaufort West Municipality implemented a new valuation roll on the 1st of July 2024. The municipality at this point is still busy with a reconciliation between financial system and the new General Valuation Roll (GVR) to ensure that there is alignment between the two. Refer to point 12.5 MFMA Circular 124 – Condition 6.8 (Completeness of the revenue base) above.
