Dear Ms Gaarekwe and Acting Municipal Manager

MFMA CIRCULAR NO. 124 - PROVINCIAL TREASURY CERTIFICATION OF MUNICIPAL COMPLIANCE OF WC053 BEAUFORT WEST MUNICIPALITY DURING NOVEMBER 2025

The National Treasury approved the debt relief application of Beaufort West Municipality with effect 1 July 2023. November 2025 constitutes the fifth month of the Municipality's third 12-month debt relief compliance cycle. The Western Cape Provincial Treasury monitored and assessed the Municipality's compliance with all the debt relief conditions during November 2025. This letter provides an overview of the Provincial Treasury's assessment of the Municipality's compliance with the programme's conditions.

1. Condition 6.1 - Municipality non-compliance

In terms of the National Treasury (NT) approval, the Municipality must comply with conditions 6.1 - 6.14 of MFMA Circular No. 124 read together with the additional conditions specific to the Municipality set-out in its National Treasury debt relief approval letter. From the Provincial Treasury's assessment, the Municipality achieved 100 per cent average compliance with the MFMA Circular No. 124 conditions during November 2025. Refer to the performance sheet in the table below that shows the Municipality's overall relief compliance performance across the debt relief cycle. Considering the Municipality's consistent and timely payment of Eskom accounts as well as the overall debt relief performance since 1 July 2023, the Provincial Treasury is of the view that the Municipality qualifies for the second tranche of debt relief. However, condition 7 still need to be met.

WC053 Beaufort West Municipality overall relief performance from July 2025 up to and including November 2025:

As we review the fifth month of the third cycle of the Municipal Debt Relief programme, it is crucial for Beaufort West Municipality to build on the progress made during the previous two 12-months period. The National Treasury has emphasized that Eskom will only consider writing off arrear debt if the Municipality demonstrates consistent compliance with all conditions for a consecutive 12-month period. Therefore, the Municipality is encouraged to maintain and improve its compliance across all performance areas to ensure continued eligibility for debt relief.

2. **Condition 6.2 - Application-based supported by Council's resolution**

The Municipality's application was endorsed by the Council and approved by National Treasury, subject to addressing specified gaps. All of these have subsequently been addressed.

3. **Condition 6.3 - Maintaining the Eskom bulk current account.**

The Municipality has made all bulk account payments timeously; and payments made reconcile to data strings for both water and electricity. The Provincial Treasury has been closely engaging and monitoring the Municipality in this regard to facilitate full compliance.

4. **Condition 6.4 - A funded MTREF**

The Provincial Treasury assessed the compliance of the Municipality's adopted 2025/26 MTREF to be **unfunded**. The Municipality has a Financial Recovery Plan in place and therefore does not need to adopt a separate Budget Funding Plan.

5. **Condition 6.5 - Cost reflective tariffs**

The Municipality submitted its completed NT Tariff Tool for 2025/26 MTREF.

6. **Condition 6.6 - Electricity and water as collection tools**

The Municipality met the requirements for this condition using the funding assistance receive from Provincial Treasury and provided proof of the smart meters that were installed to restrict and or interrupt water supply to defaulting consumers or property owner. PT will continue to monitor them to ensure that they align to the requirements of MFMA Circular No. 124. The Municipality received an invitation to apply for the Smart Meter Grant from National Treasury and has been allocated support for the installation of smart water meters.

7. **Conditions 6.7 - Maintain a minimum average quarterly collection of property rates and services charges**

It is not end of quarter yet, however, the Municipality has achieved a collection rate of 90 per cent at end of November. The Provincial Treasury is constantly engaging the Municipality on the need to further improve collections to meet the 95 per cent required norm as per MFMA Circular 71 ratios.

8. **Condition 6.8 - Completeness of the Revenue Base**

The Municipality submitted the property rates reconciliation tool.

9. **Condition 6.9 - Monitor and Report on compliance**The Western Cape Provincial Treasury's assessment included confirming that the MFMA S71 narrative statement and mSCOA data strings for September 2025 was uploaded to the GoMuni portal and that the Statement fully aligns to the MFMA S71 Statement published on the Municipality's website. The MFMA S71 Statement was also assessed against the Municipal Budget-and Reporting Regulations, 2009 (MBRR) and the National Treasury MFMA S71 reporting guidance issued to debt relief municipalities on 10 May 2024 read in conjunction with paragraphs 9(i) to 9(ix) of the NT debt relief approval letter.

The remedial actions undertaken to achieve compliance, and the timeframes thereof outlined in the MFMA S71 report are noted and monitored by the Provincial Treasury.

10. Condition 6.10 - Provincial Treasury certification of municipal compliance

The Provincial Treasury closely monitors compliance with the conditions of the Municipal Debt Relief Programme, and this letter is submitted in fulfillment of the PT's role in certifying compliance of the Municipality.

11. Condition 6.11 - Limitation on Municipal borrowing powers

The limitation on Municipality borrowing powers and the prohibition of borrowing during debt relief periods form a dual regulatory framework aimed at ensuring fiscal responsibility. Compliance necessitates meticulous scrutiny of borrowing activities to ascertain adherence to authorized limits and program guidelines. These measures, while promoting sustainable debt management, also stabilize the Municipality's financial standing, prevent over-leveraging, and mitigate immediate financial strain. Adhering to these regulations is paramount for maintaining creditworthiness, mitigating financial risks, and safeguarding the Municipality's long-term financial health. Thus, robust oversight and adherence to regulatory frameworks are imperative for prudent financial governance and sustained fiscal resilience. The Municipality has complied with this condition since its debt relief effective date of 1 July 2023, to date.

12. Condition 6.12 - Proper management of resources

It is noted that during February 2024, the National Treasury: Office of the Accountant General (OAG) issued the Supplementary Guide to MFMA Circular No. 124 on 21 February 2024. In terms of the guidance, the Municipality no longer has to maintain a separate bank account for debt relief purposes as envisaged in MFMA Circular No. 124 (Condition 6.12), however, irrespective of whether a Municipality decides to discontinue a separate bank account, ring-fencing for debt relief purposes must be enabled and demonstrated through the Municipality's monthly mSCOA data string submissions.

13. Condition 6.13 - Accounting Treatment

As disclosed in the 2024/25 Audited Annual Financial Statements, note 19.2 (page 71), non-current portion arrangement reflects a R22.845 million and a current portion arrangement R25.587 million, as at 30 June 2025. The National Treasury provided outcome letters on 6 December 2024 instructing Eskom to write-off one third (1/3) of the municipal relief debt of Beaufort West LM to the value of R25.587 million. The municipality received an approval letter on 17 January 2025. The municipality accounted for the write-off as per MFMA Circular.

14. Condition 6.14 - NERSA Licence

By having applied for Municipal Debt Relief, the council of a Municipality that during the duration of the Municipal Debt Relief programme fails to comply with any condition of the Relief, agreed to make an application to NERSA to voluntarily revoke the Municipality's license in terms of section 17 of the Electricity Regulation Act, 2006 (Act No. 4 of 2006). It is noted that this condition will only come into effect if the Municipality's participation in the debt relief programme is terminated.

15. Provincial Treasury Compliance Certification

The Provincial Treasury certifies that it monitored and assessed WC053 Beaufort West Municipality's compliance against the MFMA Circular No. 124 conditions and NT debt relief approval letter as set-out below in the PT's compliance certificate for the Municipality in relation to the period 1 – 30 November 2025:

Short term borrowing, including making use of an overdraft for in-year bridging purposes are not considered within the ambit of this condition.*

41	6.14	'NERSA License - has the municipality during the month failed to comply with any condition of the Municipal Debt Relief?	No
		Note: *By applying for Municipal Debt Relief as set-out in paragraph 3 of MFMA Circular no. 124, the council of a municipality that during the duration of the Municipal Debt Relief programme fails to comply with any condition of the Relief, agrees to apply to NERSA to revoke the municipality's license in terms of section 17 of the Electricity Regulation Act, 2006 (Act no. 4 of 2006). Any such application must be preceded by the relevant processes for appointing an external mechanism as envisaged in Chapter 8 of the Municipal Systems Act, 2000, including the necessary service delivery agreement aligning with the Municipal Systems Act, 2000 and Electricity Regulation Act, 2006. In terms of the conditions of government's wider support to Eskom, Eskom will once again have to enforce its credit control and debt collection policies also in relation to the municipality's arrears that are the subject of municipal debt relief, etc.*	

The Western Cape Provincial Treasury's assessment and compliance certificate confirms that Beaufort West Municipality during November 2025 did not fully comply with all the MFMA Circular No. 124 conditions as elaborated on above. The Municipality must still address these non-compliance matters even though the overall compliance average amounts to **100 per cent**. The Municipality is urged to strengthen its implementation of the relief conditions to fully benefit from the relief.

The Provincial Treasury continues to appreciate the opportunity that the Municipal Debt Relief Programme provided to municipalities and is committed to supporting our municipalities to ensure that they comply with the conditions of the programme in order to derive the full benefit.

Yours sincerely

12.7. The remedial actions necessary and / or undertaken to improve the municipality's monthly compliance in terms of the Debt relief Conditions.

No	Condition	Remedial actions / Comments
C 6.4	A funded MTREF	The final outcome of the 2025/26 budget assessment from Provincial Treasury indicated that the municipality has a unfunded budget. The municipality will be working with Provincial Treasury to table a unfunded budget in February 2026.
C 6.7	Maintain a minimum average quarterly collection rate of 95% on property rates and services charges	The collection rate was below 95% due to several credit control challenges. Government debt amounts to R18 million, with commitments of R5 million to be paid before 30 September — which did not materialize. The municipality will also review the performance of the contracted debt collection vendor, as there is currently a dispute. Remedial action is being taken.
C 6.8	Completeness of the Revenue Base	The Beaufort West Municipality implemented a new valuation roll on the 1st of July 2024. Category discrepancies were reduced significantly and are being addressed. The municipality over-bill by R 7,800.75 (immaterial). It was caused by category differences and an error in updating EMS to the latest SV.

12.11. Maintaining the Eskom bulk current account & Losses and 12.12. Maintaining the Water bulk current account & Losses

The Municipality's Water Debt Relief application was approved and formally communicated on 11 November 2025. A retrospective assessment of compliance with programme conditions prior to this date cannot be regarded as reasonable, as there was no legislative or regulatory requirement at the time for the monthly disclosure or quantification of water and electricity distribution losses. The quantification and disclosure of distribution losses is an annual reporting requirement in terms of MFMA section 125 and is disclosed in the Annual Financial Statements.

Notwithstanding the absence of a statutory monthly reporting requirement, the Municipality proactively reported water and electricity distribution losses on a monthly basis to the Financial Recovery Plan (FRP) Technical Committee responsible for the Financial Pillar, as information became available, in the interest of transparency and to demonstrate progress against the approved loss-reduction strategy. This information was also periodically shared with the Auditor-General, particularly in light of water losses having initially been subject to a notification as a potential material irregularity, which was subsequently averted on condition that measurable progress in addressing excessive water losses be demonstrated.

Based on the above, the relevant condition is regarded as having been achieved. The Municipality will continue to report water and electricity distribution losses and the quantification thereof, on a monthly basis going forward, with effect from February 2026 (reporting on January 2026), to be included under the relevant Water Debt Relief section of the Section 71 in-year monitoring report.

12.13. Reduction of Water and Electricity Losses

See attached the progress made by the municipality to water and energy losses against its water and energy losses reduction strategy

ELECTRICITY DISTRIBUTION LOSSES REDUCTION STRATEGY

BEAUFORT WEST MUNICIPALITY

1. Background and Strategic Context

Electricity distribution losses represent a material financial, operational, and governance risk to the Municipality and directly undermine the sustainability of the electricity trading service. As with water, electricity losses impact revenue completeness, cash flow, and the credibility of tariffs, and have therefore been prioritised under the Financial Recovery Plan (FRP).

This Electricity Loss Reduction Strategy builds on the Municipality's experience and progress in implementing the Non-Revenue Water (NRW) Reduction Strategy and aligns with the broader FRP objectives, National Treasury Debt Relief principles, and good practice in municipal electricity distribution. The strategy focuses on the reduction of both technical and non-technical losses through improved metering, billing accuracy, system controls, enforcement, and monitoring.

2. Objectives of the Strategy

The primary objectives of the Electricity Loss Reduction Strategy are to:

- Reduce electricity distribution losses to sustainable and benchmarked levels.
- Improve billing accuracy and revenue protection.
- Strengthen controls over municipal own consumption.
- Detect and eliminate illegal connections, meter tampering, and theft.
- Improve exception reporting, monitoring, and accountability.
- Support cost-reflective tariff setting and long-term financial sustainability.
- Demonstrate measurable progress in line with FRP commitments and audit expectations.

3. Key Strategic Interventions

3.1 Installation of Smart Electricity Meters

- Roll out smart prepaid electricity meters in high-risk and high-loss areas, prioritising:
  - Indigent and historically unmetered properties.
  - Properties with repeated estimation or abnormal consumption patterns.
  - Municipal facilities and bulk supply points.

- Integrate smart meters with the billing system and vending platform to ensure:
  - Real-time consumption data.
  - Automated billing and revenue recognition.
  - Reduction of estimated readings and manual intervention.

- Establish and maintain a verified smart-meter register, linked to the asset register and billing system.

3.2 Improved Meter Reading and Billing Accuracy

- Reduce reliance on estimated readings through:
  - Increased smart meter penetration.
  - Improved handheld meter reading processes where conventional meters remain in use.

- Implement regular meter reading audits and exception reviews.

- Strengthen reconciliation between:
  - Bulk electricity purchases (Eskom);
  - Energy distributed.
  - Energy billed.
  - Revenue collected.

- Investigate and resolve material discrepancies as part of monthly FRP and management reporting.

3.3 Accounting and Control of Municipal Own Consumption

- Install dedicated meters at all municipal facilities, including:
  - Pump stations.
  - Wastewater treatment works.
  - Offices, depots, and street lighting circuits.

- Ensure all municipal consumption is:
  - Accurately metered.
  - Properly billed internally.
  - Correctly accounted for in the general ledger.

- Eliminate unmetered or flat-rate municipal consumption except where technically unavoidable and formally approved.

3.4 Improved Exception Reporting and Data Analytics

- Implement enhanced exception reporting to identify:
  - Zero or near-zero consumption.
  - Sudden drops or spikes in usage.
  - Dormant or inactive meters.
  - Repeated estimated readings.
  - Abnormal losses at feeder or zone level.

- Use data analytics and dashboards to:
  - Track losses by area, feeder, and customer category.
  - Support targeted interventions.
  - Inform management and FRP oversight structures.

3.5 Removal of Dormant Meters and Network Cleansing

- Conduct a systematic review of dormant and inactive meters.

- Physically remove or regularise:
  - Redundant meters.
  - Illegal or undocumented connections.
  - Bypassed or compromised meters.

- Update the billing and asset systems to reflect the cleansed network and prevent reoccurrence.

3.6 Enforcement and Penalties for Electricity Theft

- Enforce existing by-laws and policies relating to:
  - Illegal connections.
  - Meter tampering.
  - Electricity theft.

- Apply penalties, fines, and reconnection fees consistently and transparently.

- Strengthen coordination between:
  - Technical Services.
  - Revenue and Customer Care.
  - Law enforcement where required.

- Maintain a register of theft incidents and enforcement actions for audit and governance purposes.

3.7 Public Awareness and Community Engagement

- Implement targeted public awareness campaigns focusing on:
  - The financial and legal consequences of electricity theft.
  - The link between losses, tariffs, and service sustainability.
  - Responsible electricity usage.

- Engage ward committees and community structures to support loss-reduction initiatives and reporting of illegal activities.

3.8 Monitoring, Reporting and Control at Point of Supply

- Strengthen monitoring at bulk and feeder points through:
  - Improved metering at substations.
  - Regular technical audits.

- Analyse losses at each point of supply to isolate:
  - Technical losses.
  - Commercial and non-technical losses.

- Use this information to inform infrastructure upgrades, maintenance planning, and capital investment decisions.

4. Governance, Reporting and Integration with the FRP

- Electricity distribution losses will be monitored and reported as part of:
  - Monthly FRP reporting to Provincial Treasury.
  - Management performance monitoring.
  - Debt Relief and oversight engagements.

- Reporting will be progressively enhanced as data quality improves and smart meter coverage expands.

- The strategy supports audit defensibility by demonstrating:
  - A structured, proactive response to loss-related risks.
  - Measurable progress against identified weaknesses.
  - Alignment with MFMA, GRAP, and FRP principles.

5. Expected Outcomes

The implementation of this strategy is expected to result in:

- Reduced electricity distribution losses.
- Improved revenue completeness and cash flow.
- Enhanced billing accuracy and system integrity.
- Reduced reliance on estimates and manual corrections.
- Improved audit outcomes and reduced risk of material irregularities.
- A more sustainable and cost-reflective electricity trading service.

6. Conclusion

The Electricity Distribution Loss Reduction Strategy reflects a deliberate, structured, and best-practice approach aligned with the Municipality's broader Financial Recovery Plan and informed by the successful design and implementation of the NRW Reduction Strategy. The Municipality recognises that electricity, like water, is a critical trading service and that sustained loss reduction is essential to restoring financial stability, protecting revenue, and ensuring reliable service delivery to the community.

WATER DISTRIBUTION LOSSES - NRW

Comprehensive Implementation and Post-Implementation Framework: December 2023 – June 2026

In addition, as reported on the MI on 14 March 2025

1. BACKGROUND

The Smart Meter Grant (SMG) Project forms part of the broader Financial Recovery Plan (FRP) and the National Treasury Debt Relief Programme. It aims to reduce non-revenue water (NRW), improve billing accuracy, and restore the financial sustainability of the Beaufort West Municipality's water service function.

This strategy consolidates activities from December 2023 to March 2025 (as reported to the AG) and sets out the forward plan up to June 2026 (post-implementation phase), ensuring long-term sustainability through tariff restructuring, maintenance, and lifecycle cost planning.

2. CHRONOLOGY OF KEY ACTIONS AND MILESTONES

3. POST-IMPLEMENTATION STRATEGY (September 2025 – June 2026)

Following completion of the installation phase, the municipality will implement a phased strategy to ensure sustainability, revenue protection, and compliance with the FRP.

Phase 1: September – December 2025 – Post-Implementation and Performance Monitoring

- Conduct a comprehensive post-installation audit validating data accuracy, meter functionality, and system integration with billing.
- Compile an updated smart-meter register – Monitor through MTN Smart Metering Monitoring platform and establish a dedicated unit dealing only with metering and reticulation issues.
- Daily monitoring of the performance dashboard for continuous tracking of meter efficiency, connectivity, and consumption trends.
- Analyse NRW reduction results in the high-loss zones (Hillside and Graceland) to quantify impact and adjust controls. (Part of PT reporting and MTN pilot reporting with BWM the first opting for water meters under the debt relief initiative.
- Produce a Performance and Sustainability Report to guide tariff restructuring and maintenance provisioning. Cost drivers clearly identified including infrastructure to form part of tariff-setting methodology.

Phase 2: January – March 2026 – Tariff Restructuring and Cost-Reflective Modelling

- Launch the Tariff Modelling Project to restructure tariffs to include:
  - Full repairs and maintenance (R&M) costs and plan for smart infrastructure (R&M plan to be financed by the tariffs / cost reflective).
  - Depreciation and replacement provisions over the 8-year meter lifecycle.
  - Annual battery replacement costs for 5 % of total meters / annum.
  - Operational costs related to connectivity, data management, and vendor system support – first three years included in the PT project (240 meters) and part of the NT SMG rollout – After three years costing.
- Establish a dedicated Smart Meter Maintenance and Renewal Reserve Fund within the MTREF.
- Integrate lifecycle costing into water tariffs to ensure. Apply for funding for a Water CoS.
- Align the restructuring process with FRP Phase II actions and MFMA compliance requirements.

Phase 3: April – June 2026 – Budget Integration and Institutionalisation

- Incorporate the revised tariff structure and cost provisions into the 2026/27 MTREF budget.
- Institutionalise a preventative maintenance plan under Technical Services, with measurable indicators and dedicated cost centres.
- Present quarterly progress reports to the FRP Steering Committee and Oversight Committee covering implementation progress, financial impacts, and water-loss performance.

4. FINANCIAL SUSTAINABILITY AND RISK ALIGNMENT

- The integration of smart-meter lifecycle costs into tariffs will secure funding for long-term infrastructure sustainability and prevent future unfunded expenditure risks.

5. EXPECTED OUTCOMES

- Reduced non-revenue water losses and improved billing accuracy.
- Enhanced financial sustainability through lifecycle-cost budgeting.
- Compliance with DWS and FRP requirements.
- Strengthened asset management and preventative maintenance culture.
- A cost-reflective tariff structure that ensures reliable service delivery and the replacement of ageing smart-meter infrastructure.

CONCLUSION

The municipality has taken all possible steps to address revenue loss while working towards a long-term solution to rectify the infrastructure deficiencies that ultimately led to both revenue losses and excessive distribution losses. The current strategy, along with the DoRA allocation for metering and water management, is not the result of chance but rather of deliberate and initiative-taking actions taken by the municipality.

Furthermore, the municipality challenged conventional thinking by reframing water management as a key factor contributing to the financial distress that necessitated programs like the Debt Relief Program to support struggling municipalities in this regard. This was not initially a consideration. Water, like electricity, is a trading service, and given its scarcity as a resource and the declining profitability of electricity, it has become an essential component of the municipal revenue base.

Currently, Beaufort West operates water as a cost-recovery /economical municipal service rather than a revenue-generating one. However, with the necessary measures in place, the municipality is poised to restore water as a sustainable trading service, strengthening financial viability while implementing consumption-based tariffs to mitigate the risk of a humanitarian crisis—such as running out of water, which would severely impact sanitation and the broader community well-being.

We urge you to consider and acknowledge the efforts made, recognizing that there were no alternative solutions available under the given circumstances. While the challenge of excessive water losses and non-revenue water is not unique to Beaufort West, the actions and plans implemented to address these issues are.
